ABSTRACT

Education is changing rapidly throughout Florida, and it can be difficult for high school counselors to keep the most current material on hand. This handbook is prepared and updated annually in response to needs expressed by Florida high school counselors for a simple, easy to understand, but comprehensive guide to help students make decisions about application for admission to postsecondary education institutions. It is a general guide to admissions requirements and procedures for students who have not selected a postsecondary institution and who may be uncertain of their eligibility for admission. Major topics covered are: (1) the application process; (2) students' rights and responsibilities in the college admissions process; (3) career development and educational planning programs and services; (4) support services for students with special needs; (5) articulation coordinating committee; (6) how to appeal a student admission or transfer difficulty; (7) the statewide course numbering system; (8) financial aid; (9) the Florida community college system; (10) the state university system of Florida; (11) independent colleges and universities of Florida; (12) designated area vocational-technical education centers; and (13) designated area vocational education schools. INTRODUCTION

The Counseling for Future Education Handbook is prepared and updated annually in response to needs expressed by high school counselors for a simple, easy to understand, but comprehensive guide to help students make decisions about application for admission to postsecondary education institutions. The handbook is not meant to provide detailed information about individual institutions, programs, majors or extracurricular activities. Instead, it is a general guide to admissions requirements and procedures for students who have not selected a postsecondary institution and who may be uncertain of their eligibility for admission.

Counselors are encouraged to use this handbook in conjunction with the many other resources currently available. These include not only the Florida Statutes and accompanying rules and regulations related to secondary and postsecondary education, but also detailed information on specific colleges and designated area technical education centers described in their catalogues and promotional materials.

Education is changing rapidly throughout Florida, and it can be difficult to keep the most current material on hand. The quest for excellence has already led to higher standards for admission to college and increased the level of secondary preparation required for high school graduation. As these and other changes are implemented, the information provided here will become obsolete. For that reason, we have provided the names and phone numbers of the admissions officers at responding colleges and schools. Please feel free to contact them when you need additional information, explanation, or assistance.

The handbook was developed as a collaborative effort of various agencies within the Florida Department of Education and representatives of public high schools, community colleges, area technical education centers, and state universities. The members of the Handbook Steering Committee are grateful for the cooperation of Florida's colleges and designated area technical education centers for providing the information contained in this handbook. Comments or requests for changes or improvements to this handbook should be addressed to Mr. Taylor Cullar, Office of Postsecondary Education Coordination, Florida Department of Education, 1101 Florida Education Center, Tallahassee, Florida 32399-0400, or to any of the members of the Handbook Steering Committee.

THE APPLICATION PROCESS

A student's application for admission to a postsecondary education institution should be prepared in such as way that presents the student's highest capabilities and achievements. The application form should be completed as accurately, neatly, and legibly as possible, following all the instructions provided in the application packet. The private colleges and universities, as well as the state universities, may have limits on the number of students who can be admitted. Therefore, every detail that can present the student favorably to the admissions committee may be an important factor in an admissions decision.

Most postsecondary institutions start accepting applications a year ahead of the anticipated enrollment and some start accepting students for admission as the student applications are processed. In an institution following this practice, students who apply early may have advantages over those who apply later because applicants may be placed on a waiting list or may not be accepted after the desired number of students has been admitted. Other institutions may have specific deadlines for submitting applications. It is extremely important to meet those deadlines because an application may be rejected simply because it was received late. In most institutions with strict application deadlines, the applicants are not notified of acceptance for admission until after the deadlines. Institutions may look at all applicants and establish a cut-off standard higher than the published minimum requirements in order to keep the number of entering freshmen below a prescribed maximum and to maximize the quality of the pool of students accepted for admission.

The counselor may play an important role in the admissions process for individual students. The professional relationship that the counselor maintains with the college and university admissions offices places the counselor in a position to be an advocate for the student. A phone call or a written recommendation from the student's high school counselor may be used to supplement the student's application and transcript and can often make the difference between acceptance and nonacceptance for students with borderline credentials.

The following guidelines are provided to help the counselor write a cogent and persuasive recommendation or summary appraisal for a student.

1. **USE WORDS WISELY; BE AWARE OF THE POWER OF WORDS!** A word may carry special meaning or connotation, either positive or negative, to college admission decision makers.

   AVOID WORDS OR EXPRESSIONS THAT CAN BE TAKEN THE WRONG WAY such as: cute, manly, buxom, contentious, handsome, pretty, tense, obsessive, nervous, political, popular, fine young girl (or boy).

   EXAMPLES OF BLAND WORDS: nice, pleasant, competent, meaningful, appropriate, reasonable, growing, good, fairly, rather, likable, satisfactory, decent.

   EXAMPLES OF POWERFUL WORDS: engaged, significant, force, mature, sophisticated, expressive, imaginative, innovative, witty, urbane, impact, focus, poise, capacity, charismatic, intelligent, brilliant, assertive, survivor.

   In writing recommendations, remember that bland words send a message to the admissions office that the student is of moderate, not outstanding, ability. Be specific. By achieving specificity, you enhance your student's chances of success in the college admissions process.

The Application Process (Continued)

2. **DESCRIBE THE STUDENT'S COURSEWORK IN TERMS OF THE SCHOOL'S OVERALL CURRICULUM!** Did the student take the most difficult and challenging courses the school offers, or was he in a conventional college preparatory program. Be honest. Attaching the school's profile, which contains information about your curriculum, will help accomplish this recommendation.

3. **MAKE SPECIFIC JUDGMENTS ABOUT THE STUDENT'S ABILITY TO FORMULATE HYPOTHESES, GATHER RELEVANT EVIDENCE, AND REACH SENSIBLE IF NOT NOVEL CONCLUSIONS.** At the core of any recommendation lies the crucial evaluation of the student's performance in the classroom. Colleges appreciate your assessment of the student's skills in meeting the academic challenge of his or her courses. Naturally, the student's teachers should be consulted to gather this information, so quote them. It strengthens the overall appraisal to include quotes from teachers, parents, peers, coaches, sponsors, etc.

   Comment on the student's ability to deal with evidence in conventional and creative ways. Does she or he enjoy the process of learning? This is usually critical information in a competitive college admissions recommendation. Is she or he able to deal with learning's difficulties calmly? Does this enjoyment infect others in positive ways or is it of a more private and introspective nature? Can you describe this student's specific strength and compare it with the strength of his peers?

4. **DISCUSS THE STUDENT'S INTERESTS, MOTIVATION, COMMITMENT, CURIOSITY, INDEPENDENCE, AND GENERAL EDUCABILITY BOTH IN THE CLASSROOM SETTING AND IN HIS EXTRACURRICULAR ACTIVITIES.** Does he or she work beyond the call of duty? Colleges are especially favorable toward someone with this trait!

5. **SHARE WHAT YOU KNOW ABOUT THIS STUDENT'S OVERALL PERSONAL CHARACTER!** Share the kind of relationship he or she has with peers. How does he or she treat others?

6. **KEEP A COPY OF ADMISSIONS RECOMMENDATIONS OR SUMMARY APPRAISALS!** You may wish to be reminded of your comments about a student if called upon to discuss the student's application or recommend the student for admission to another institution or for employment.

7. **NOT ALL APPLICATIONS REQUIRE A COUNSELOR'S RECOMMENDATION!** Neither the community colleges nor the state universities require a counselor's recommendation. Some private colleges require a counselor's recommendation. A state university may require a counselor's recommendation when a student has been denied admission and is appealing the decision. Some scholarship applications require one, and these often require the counselor to address the issue of the financial need of the candidate. A counselor's recommendations may be especially beneficial to a student who has an academic record or test score that does not adequately reflect the student's potential.

STUDENTS' RIGHTS AND RESPONSIBILITIES IN THE COLLEGE ADMISSIONS PROCESS

STUDENTS HAVE THE RIGHT TO:

- receive full information from colleges and universities concerning their admission and financial aid policies.

Students should read the materials provided by the college or university in order to inform themselves fully of policies and procedures concerning application fees, deposits, refunds, housing, and financial aid awards, before making application for admission.

- defer responding to an offer of admission and/or financial aid until the student has heard from all colleges and universities to which he or she has applied, or until May 1 (whichever is earlier).

If a student is denied this right, he or she should:

- immediately request the college or university to extend the reply date;

- contact the counselor and ask him or her to notify the president of the state or regional Association of College Admission Counselors.

For additional assistance, the student may send a copy of the admission notification letter and all correspondence to:

Executive Director
National Association of College Admission Counselors
1631 Prince Street
Alexandria, Virginia 22314
(703) 836-2222

STUDENTS HAVE THE RESPONSIBILITY TO:

- be aware of the policies (deadlines, restrictions, etc.) regulating admissions and financial aid for the colleges and universities they choose;

- complete and submit the required materials to the colleges and universities;

- meet all application deadlines;

- follow college application procedures of the student's high school;

- communicate acceptance or rejection to each college or university offering acceptance for admission as soon as the student has heard from all to which application was made, or by May 1, whichever is earlier; and

- confirm his or her intention to enroll and submit a deposit to only one institution by the required notification date, usually May 1. If the student has been put on a waiting list and later accepts another college, it is of course permissible to send acknowledgement and deposit to this second college; the student must also notify the former college immediately of the change in circumstances and his or her plans to attend elsewhere.

CAREER DEVELOPMENT: Programs and Services

The The Bureau of Career Development and Educational Improvement provides career, education, financial aid and related information through printed products and computerized programs. This information is used by counselors, occupational specialists, and others to aid students or clients in making career and education plans. The Bureau is also responsible for implementation of the Blueprint for Career Preparation and Academies for Career Development and Applied Technology.

The Bureau provides the following career development programs and services:

❖ ***CHOICES/CHOICES CT*** provides career, education and financial aid information through a computerized system. The database contains information on Florida based careers, all Florida public and private postsecondary institutions, over 4,000 national institutions, and over 1,700 financial aid sources. CHOICES CT also includes a Transferable Skills Module that will allow a search for occupations based on previous job experience or skills learned from previous jobs.

❖ ***The Career and Educational Planning Guide (The Guide)*** is a career and educational planning magazine containing career information on selected occupations, a directory of Florida schools, and an extensive financial aid and scholarship section. The Guide is distributed free of charge to public high school juniors and seniors, and to students at community colleges, vocational-technical centers and universities. The Career Cruiser, designed for middle schools, contains career information and related activities.

❖ ***The $ource*** is a financial aid software program which has over 1,300 specific financial aid awards. Students and/or counselors can search for awards by program of study, specific institutions and student characteristics. The $ource includes grants, scholarships, loans, work-study programs and fellowships for all levels of postsecondary study. These include federal and state sponsored awards, as well as awards sponsored by Florida institutions, private organizations and associations. Some national level awards are also included.

❖ ***The Florida Career Information Delivery System (FCIDS)*** files, delivered through the Florida Information Resource Network (FIRN), are designed as information tools for occupational specialists, counselors, teachers and administrators. These files can serve as a quick and easy reference for specific information on occupations, educational institutions and programs, and financial aid awards. Job Bank lists actual job openings listed with the Florida Job Service.

❖ ***PATHWAYS TO YOUR FUTURE*** is a program to assist 8th graders in setting goals and developing a four-year educational plan to achieve these goals. Career Planner Activities is a student workbook with job awareness and goal setting activities suitable for a classroom setting or Teachers As Advisors groups. The Student Career and Education Planner is a folder in which students enter information about themselves and possible programs of study. The process begins in the 8th grade and the planner is updated yearly until graduation. The Florida Computer Assisted Career Planning System (FCACPS) develops sample programs of study matching a student's interests and includes courses available at their articulating high schools. Individualized printouts also contain career information.

SUPPORT SERVICES FOR STUDENTS WITH SPECIAL NEEDS

The counselor may play a key role in the ability of minority, disabled, and disadvantaged students to be competitive and prepare themselves to meet admission standards for colleges and universities. Early motivation and enrollment in regular and advanced courses which prepare students for college level work are key to a student's ability to be competitive in the admission process, and, more importantly, to be successful in college. The counselor can assist minority, disabled, and disadvantaged students by seeing to it that they take the courses that prepare them for success in college, and by putting them in touch with the support systems that are available to them. The counselor may also serve students with special needs by maintaining a good working relationship with the admissions and financial aid officers and other key personnel of the colleges and universities who can provide academic guidance and support for these students.

The following external programs provide support to minority and disadvantaged students:

1. **COLLEGE REACH-OUT PROGRAM (CROP)**
   Purpose: The program is directed at using the resources of our community colleges and state universities to strengthen the educational motivation and preparation of low income, educationally disadvantaged middle and high school students and increase their desire and ability to profit from postsecondary education.

Dr. James Goss, Director, (813) 341-3257

3. **TRIO PROGRAMS**
The TRIO programs are designed to help disadvantaged students enter college, graduate, and move on to full participation in the economic and social life of their communities. Funded under Title IV of the Higher Education Act of 1965, TRIO programs help students overcome class, social, and cultural barriers to higher education, unlike financial aid programs, which target financial barriers. 58 percent of TRIO participants are members of minority groups, 42 percent are white, and 14,000 are handicapped.

4. OTHER SOURCES

Additional information on college and university programs for minority and disadvantaged students can be obtained by requesting a copy of "Programs to Enhance the Participation of Minority and Disadvantaged Students in Florida Postsecondary Education" from the Postsecondary Education Planning Commission, 231 Collins Building, Florida Department of Education, Tallahassee, Florida 32399-0400.

THE ARTICULATION COORDINATING COMMITTEE

The statewide Articulation Coordinating Committee was established as part of the Articulation Agreement in 1971 to adjudicate institutional or student conflicts regarding student transfer and admissions, to interpret and recommend amendments to the Articulation Agreement, and to develop procedures to facilitate articulation. The Articulation Coordinating Committee is appointed by and reports to the Commissioner of Education. Its thirteen members represent all levels of public education: the Office of the Commissioner of Education, the State University System, the Community College System, public schools, and applied technology. In addition, there are a student member and a member-at-large.

Specific responsibilities of the Articulation Coordinating Committee are to:

- accept continuous responsibility for public school district-community college-university relationships;
- establish groups of university-community college-public school district representatives to facilitate articulation in subject areas;
- conduct a continuing review of the provisions of Rule 6A-10.024, FAC, commonly referred to as the Articulation Agreement;
- review instances of student transfer and admissions difficulties among state universities, community colleges, and public schools, and provide advice to the institutions concerned;
- recommend resolutions of issues and recommend policies and procedures to improve articulation systemwide;
- recommend the priority to be given research conducted cooperatively by the divisions of community colleges, universities, and public schools with individual institutions;
- review and make recommendations to institutions for experimental programs which vary from official transfer policy;
- recommend to the Commissioner, on or before November 30 of each odd numbered year, any changes to the definitions of college-level communication and computation skills as provided in Rule 6A-10.0310, FAC; and
- develop test item specifications based on the college-level communication and computation skills identified in Rule 6A-10.0310, FAC, and use the specifications to develop tests and other assessment procedures to measure the level of student attainment of the skills.

A significant amount of the work completed by the Articulation Coordinating Committee is done by the standing committees of the ACC.

1. **The Standing Committee on Alternative Ways of Earning Credit** is responsible for reviewing programs and making recommendations for providing students with non-traditional ways of earning college credit and for making sure that the transfer of credit awarded through these programs is guaranteed by the terms of the Articulation Agreement.

2. **The Standing Committee on Student Achievement** is responsible for reporting on the status of students' achievement of communication and computation skills on the College-Level Academic Skills Test (CLAST) and for making recommendations for enhancing curriculum and instruction.

3. **The Standing Committee on Student Records and Electronic Systems** is responsible for developing a format and making recommendations for implementing the electronic transfer of student records.

4. **The Standing Committee on Applied Technology Education** is responsible for making recommendations to improve the articulation of **applied technology** education programs.

5. The Standing Committee on Articulation Accountability is responsible for developing articulation accountability measures; collecting, analyzing, and making recommendations on the accountability measures via an Articulation Accountability Report.

The Articulation Coordinating Committee is chaired by the Deputy Commissioner for Educational Programs and meets bi-monthly. The meetings are open to the public. For more information on the Articulation Coordinating Committee, write to the Office of Postsecondary Education Coordination, Florida Department of Education, 1101 Florida Education Center, Tallahassee, Florida 32399-0400, or call (904) 922-0344 or (SC) 292-0344.

HOW TO APPEAL A STUDENT ADMISSION OR TRANSFER DIFFICULTY

All of the avenues available to the student at the institutional level should be pursued prior to appealing to the Articulation Coordinating Committee. The student should keep a copy of all correspondence and a log of all telephone contacts.

If the denial is upheld at the university level and there is still a question of potential violation of the Articulation Agreement, the student may request a hearing before the Articulation Coordinating Committee. The procedures for filing such an appeal with the Committee are as follows:

1. The student submits a statement of the problem, a copy of the letter of denial from the university, a copy of the transcript in question, a copy of the page(s) from the catalog or counseling manual, and a request to have a hearing before the Articulation Coordinating Committee for purposes of adjudication.

2. All student appeals and policy concerns are reviewed by the Articulation Appeals Subcommittee, which then forwards its recommendation(s) to the Articulation Coordinating Committee. Issues not resolved by the subcommittee are sent to the full committee for resolution.

3. The Articulation Coordinating Committee and Articulation Appeals Subcommittee may request the appearance of representatives or statements from the receiving or sending institution to provide additional information or clarification on the issue.

4. A decision letter on the disposition of an appeal is written by the chair of the Articulation Coordinating Committee to the division directors, and copies are simultaneously sent to all persons involved, including the student. The decision of the Articulation Coordinating Committee shall be final.

THE STATEWIDE COURSE NUMBERING SYSTEM

Florida's Statewide Course Numbering System (SCNS) is a classification system that designates courses to appropriate subject matter (content) areas. All public universities, community colleges, postsecondary vocational-technical centers, and a select number of private postsecondary institutions use this same numbering system.

A course designation within the Statewide Course Numbering System consists of:

(a) a 3-letter prefix
(b) a 4-digit number
(c) a one letter suffix, if applicable ("L" for laboratory or "C" for combination lecture/laboratory).

All courses assigned the same SCNS course prefix, the same last three digits, and the same suffix (if present) have been judged by a faculty discipline committee to be equivalent and should be considered guaranteed to transfer if the receiving institution offers the course. The first digit of the four digit number indicates the level at which the course is offered (1 for freshman, 2 for sophomore, etc.). It is assigned by the institution and does not affect the equivalency.

Example:

SCNS COURSE ID

CHM	**1**	**045**	**L**
Subject matter	Indicates level	Places course within appropriate subcategory	Suffix

CHM 1045L is General Chemistry Laboratory, a course within the Chemistry subject matter area, taught at the freshman level. This course is a laboratory component for CHM 1045, General Chemistry.

By law, any student who transfers among postsecondary institutions that participate in the Statewide Course Numbering System must be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions to satisfy institutional requirements on the same basis as credits awarded to native students, provided the courses have been assigned the same prefix and last three digits. Thus, if MAC 3233 is a requirement for a major at a university and a student has satisfactorily completed MAC 2233 at a community college or as a dual enrollment course, and the university offers that course to its native students as MAC 3233, the university is required to award credit to the transferring student for MAC 3233.

Although the general transferability rule of the Statewide Course Numbering System is that **ALL COURSES THAT HAVE BEEN ASSIGNED THE SAME PREFIX AND THE SAME LAST THREE DIGITS ARE EQUIVALENT AND THEREFORE GUARANTEED TO TRANSFER,** there are some exceptions to this rule. Excluded from the guaranteed transfer rule are:

- courses not offered by the receiving institution;
- college preparatory and vocational preparatory courses;
- performance courses in theater, dance, music, and studio art;
- portfolio courses in interior design;
- clinical courses in health-related areas;
- criminal justice high liability courses;
- graduate courses; and
- courses with the last three digits ranging from 900-999.

Information on the SCNS file can be useful for counselors at area vocational technical centers, high schools, colléges, and universities. Because course inventories are statewide, these persons can immediately identify institutions to which courses are transferable and institutions offering certain courses in which a student may be interested. For future transfer students, SCNS comparison reports can provide information on the courses that are guaranteed to transfer to a selected institution. If a student has difficulty transferring dual-enrollment credit, the appropriate appeal procedures to follow are listed in the Articulation Coordinating Committee section. (See "How to Appeal a Student Admission or Transfer Difficulty" on Page 12.)

Many reports are available through the SCNS: discipline course inventories, which list all the courses offered in a particular discipline and the institutions that offer those courses; course equivalency profiles (generic course descriptions) by discipline; institution course inventories, which list all the courses offered by a particular institution; institutional course comparability matrices, which can compare course offerings between a number of institutions; and on-line queries for special requests, to name a few.

View-only computer access to the SCNS is available for a fee through the Northwest Regional Data Center; applications for on-line access are available through the Office of Postsecondary Education Coordination. Users may browse through any and all of the available SCNS files and then may request hard copies of information they might find helpful.

To request a report or for information on obtaining view-only access to the SCNS, please contact the Office of Postsecondary Education Coordination, Florida Department of Education, 1101 Florida Education Center, 325 West Gaines Street, Tallahassee, Florida 32399-0400; or phone (904) 488-6402 or SUNCOM 278-6402.

For more information on the Statewide Course Numbering System, call the Office of Postsecondary Education Coordination, Florida Department of Education at (904) 488-6402 or SUNCOM 278-6402.

Financial Aid

HOW TO APPLY FOR FINANCIAL AID

Paying for college is not always easy. College costs rise each year and many students and their families need some form of financial assistance to help pay these costs. The following suggestions will help facilitate the financial aid process.

•Students should contact the college/school they might want to attend and request a financial aid application packet. The packet will provide them with information about the financial aid programs the school offers and the forms they will need to complete.

•Each college will request that students complete the Free Application for Federal Student Aid (FAFSA). Some colleges will also require completion of other forms. Be sure to contact the college to inquire about other forms they require.

•Application processing can take four weeks to four months from the date the completed forms are mailed until the student is notified of his or her award.

•If possible, students should apply for financial aid in January or February before the term they plan to begin college. A late application may reduce the amount of money the student ultimately receives. The earlier students apply, the better chance they will have of being considered for all available programs. Some programs, however, such as the Federal Pell Grant and the Federal Stafford Loan, are open for application throughout the year.

TYPES OF FINANCIAL AID

Financial aid is money provided by various agencies (federal, state and local governments, universities, community organizations, and private corporations or individuals) to help students meet the costs of attending college. It includes gift aid--grants and scholarships--and self-help--loans and student employment.

Scholarships
Scholarships are based on academic or athletic achievement, but financial need may also be considered. Scholarships are considered gift aid because they do not have to be paid back. Scholarships are awarded by states, institutions and departments, as well as by private companies and individuals.

Grants
Grants are gift aid awarded to students who demonstrate financial need. Grants do not have to be repaid.

Loans
Student loan programs offer long-term, low-interest educational loans which allow you to defer repayment until after graduation, withdrawal or termination of at least half-time attendance.

Employment
Students can obtain part-time jobs to assist in meeting their college costs and, if possible, gain work experience in a field related to their chosen profession. Job duties rang from those demanding special research skills to those demanding only the willingness to work.

FEDERAL FINANCIAL AID PROGRAMS

• FEDERAL PELL GRANT PROGRAM

Description:

1. A need-based grant provided to degree-seeking undergraduate students who have not received their first bachelor's degree.
2. Considered as gift aid, does not have to be repaid.
3. Awarded to students with exceptional need.

Eligibility:

1. Is determined by the completion of the Free Application for Federal Student Aid (FAFSA), and calculated by Federal Methodology.
2. Hours enrolled determine payment amount.
3. Awards range from $400 to $2,340 per academic year.

• FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (FSEOG)

Description:

1. A need-based grant provided to degree-seeking undergraduate students who have not received their first bachelor's degree.
2. Considered as gift aid, does not have to be repaid.
3. Awarded to students with exceptional need.

Eligibility:

1. Is determined by the completion of the Free Application for Federal Student Aid (FAFSA), and calculated by Federal Methodology.
2. 1995-96 Award range from $200 to $4,000 per academic year.

• FEDERAL WORK STUDY PROGRAM (FWSP)

Description:

1. A need-based award provided to degree-seeking undergraduate students who have not received their first bachelor's degree.
2. Considered as self-help aid, does not have to be repaid.
3. Students can be employed on campus or by authorized off-campus employers/Community Service Agencies.
4. Available to undergraduate and graduate students, and students seeking a second baccalaureate or professional degree.

Eligibility:

1. Is determined by the completion of the Free Application for Federal Student Aid (FAFSA), andcalculated by Federal Methodology.

• FEDERAL PERKINS LOAN PROGRAM

Description:

1. A need-based, low-interest loan awarded by the institution.
2. Priority must be given to students with exceptional financial need.
3. Interest rate is 5%. There is no origination fee.
4. Repayment is deferred until 9 months after graduation or termination of at least half-time attendance.

Eligibility:

1. To be considered for a Federal Perkins Loan, students must complete the Free Application for Federal Student Aid (FAFSA).
2. Loan Maximums = (a) $3,000/year for under graduate study and $5,000/year for graduate study, (b) $15,000 cumulative for undergraduates who have not completed undergraduate program, (c) $30,000 for graduate study (including loans borrowed at undergraduate level).

FEDERAL FAMILY EDUCATION LOAN PROGRAM

• FEDERAL STAFFORD LOAN

Description:

1. A long-term loan program which enable students to borrow directly from a bank, credit union, savings and loan or other participating lender.
2. The subsidized Federal Stafford Loan is based on financial need, determined by Federal Methodology. The Unsubsidized Federal Stafford Loan is not based on need and is limited to the difference between the annual maximum eligibility and the subsidized loan amount.
3. Interest for new borrowers as of 10/1/92 is variable.
4. Students who do not qualify for academic year maximums for subsidized Federal Stafford Loans may qualify for unsubsidized Federal Stafford Loans for the remaining amount of the academic year maximum.
5. For the Federal Stafford Loan, repayment of principal and interest is automatically deferred until 6 months after graduation or less than half-time attendance.
6. For the unsubsidized loan, repayment of the loan principal may be deferred until 6 months after graduation or less than half-time attendance. However, the borrower is expected to begin interest payments immediately. Check with lender for deferment options.

Eligibility:

1. Prior to applying for a Federal Stafford Loan, students must complete the Free Application for Federal Student Aid (FAFSA).
2. Student must be enrolled at least half-time as a degree-seeking student, maintain academic satisfactory progress and not be in default or owe a repayment to Title IV aid.
3. All first time undergraduate students must attend a Loan Entrance Counselling Session prior to receiving their loan check.
4. Loan Maximums = (a) Freshmen $2,625 per year (b) Sophomores, $3,500 per year (c) Juniors and Seniors $5,500, (d) Graduate students, $8,500.
5. Maximum Aggregate Loan Amount = Dependent Undergraduate Student $23,000; Independent Undergraduate Student $46,000; Graduate or Professional Student $138,500.
6. All first time undergraduate students must attend a Loan Entrance Counselling Session prior to receiving their loan check.

• FEDERAL PARENT LOAN FOR UNDERGRADUATE STUDENT (FPLUS) GENERAL

Description:

1. A non-need based loan program designed to assist parents of dependent students with educational costs.
2. The interest rate is variable.
3. Disbursement shall be either via electronic funds transfer to the institution, or by check, made co-payable to the school and parents and sent directly to the school.

Eligibility:

1. Borrower must not have an adverse credit history. A credit check is required.
2. Minimum amount to borrow is established by each lender; maximum is cost of attendance minus other financial aid.
3. No regulated aggregate maximums.
4. Students must maintain satisfactory academic progress.

5. Students and parents cannot owe a repayment to or be in default on any Title IV aid.
6. Repayment begins within 60 days following the disbursement of the loan. Parents should check with Lender for deferment options.

STATE OF FLORIDA FINANCIAL AID PROGRAMS

• FLORIDA STUDENT ASSISTANCE GRANTS

Description:
The Florida Student Assistance Grant (FSAG) is a need based grant provided to full-time degree seeking students. The Florida (Public) Student Assistance Grant is available to students who attend a Florida public college or university. The Florida Private Student Assistance Grant is available to students who attend an eligible Florida independent non-profit college or university. The Florida Postsecondary Student Assistance Grant is available to students who attend an eligible Florida private college or university which offers degrees and is not eligible under the Florida Private Student Assistance Grant.

Eligibility:
An applicant must:
1. Be a U.S. citizen or eligible noncitizen.
2. Not have previously received a bachelor's degree.
3. Be a resident of the State of Florida.
4. Enroll at an eligible Florida institution for a minimum of twelve (12) credit hours per term.
5. Demonstrate financial need by completing the "Free Application for Federal Student Aid" by the May 15 deadline.
6. The amount of grants range from $200 - $1,500 per academic year.
7. A renewal applicant must have earned a minimum cumulative grade point average of 2.0 on a 4.0 scale and have earned the equivalent of 12 credit hours for each term an award was received during the previous academic year.

• FLORIDA UNDERGRADUATE SCHOLARS' FUND

Description:
The Florida Undergraduate Scholars' is a renewable merit scholarship program for outstanding high school graduates attending an eligible Florida public or private college, community college or university. The academically top-ranked Florida Undergraduate Scholars' Fund (FUSF) recipient from each county may receive the Challenger Astronauts Memorial* award in addition to the FUSF award.

Eligibility:
An applicant must:
1. Not have previously received a bachelor's degree.
2. Be a resident of the State of Florida.
3. Have received a Florida high school diploma or its equivalent.
4. Meet scholastic requirements including a minimum score of 1200 on the Scholastic Aptitude Test (SAT) or a minimum score of 29 on the American College Testing Program (ACT).
5. Enroll at an eligible Florida public or private college, community college or university for a minimum of twelve (12) credit hours per term.
6. Submit an application for this program to the Office of Student Financial Assistance, Florida Department of Education, postmarked by April 1 during the last year of high school.
7. All initial and renewal FUSF scholarships are $2,500 per academic year. A recipient of a Challenger Astronauts Memorial award is eligible to receive an additional $1,500 for a total award of $4,000 per academic year. Full awards are subject to the availability of funds.
8. A renewal applicant must have maintained a minimum cumulative grade point average of 3.2 on a 4.0 scale and have earned the equivalent of 12 credit hours for each term an award was received during the academic year.

*** Challenger Astronauts Memorial:**
A Challenger Astronauts Memorial award recipient from each county will be selected from FUSF recipients who attended a Florida high school during their last year of high school and are enrolled in an eligible postsecondary institution. Eligible FUSF recipients will be grouped based on the county in which they high school is located and ranked using the product of the student's high school cumulative GPA and the composite SAT score, or the ACT equivalent score. The $1,500 Challenger Astronauts Memorial award cannot be reinstated; however, a Challenger award recipient may apply to have the $2,500 FUSF award reinstated.

• JOSE MARTI SCHOLARSHIP CHALLENGE GRANT FUND

Description:
The Jose Marti Scholarship Challenge Grant provides financial assistance to Hispanic-American high school seniors and graduate students who meet scholastic requirements, demonstrate financial need, and enroll for undergraduate or graduate study.
The amount of the grant is $2,000 per academic year. A renewal applicant must have earned grade point average of 3.0 on a 4.0 scale and have

earned the equivalent of 12 credit hours for undergraduate study or 9 credit hours for graduate study.

Eligibility:
An applicant must:
1. Be a U.S. citizen or eligible noncitizen.
2. Be a person of Spanish culture who was born in, or whose natural parent was born in, either Mexico or Spain, or a Hispanic country of the Caribbean, Central America or South America.
3. Have earned a minimum unweighted cumulative grade point average of 3.0 on a 4.0 scale in high school or, if a graduate applicant earned a minimum cumulative grade point average of 3.0 on a 4.0 scale for undergraduate college level courses.
4. Enroll at an eligible Florida public or private college or university for a minimum of 12 credit hours of undergraduate study or 9 credit hours of graduate study.
5. Demonstrate financial need by completing the "Free Application for Federal Student Aid" by the May 15 deadline.
6. Submit an application for this program to the Office of Student Financial Assistance, Florida Department of Education, postmarked by April 1 during the last year of high school for undergraduate study or postmarked by April 1 prior to the year for which the funds are requested for graduate study.

• ROBERT C. BYRD HONORS SCHOLARSHIP PROGRAM

Description:
The Robert C. Byrd Honors Scholarship provides scholarships to outstanding high school graduates who show promise of continued academic achievement. Each public and private high school in Florida may nominate one applicant as a potential recipient of a Robert C. Byrd Honors Scholarship. Scholarships will be distributed in such a way that each geographic part of the state has a proportionate share of awards. The scholarship provides awards of $1,500 for each year of postsecondary study up to a maximum of four (4) years.

Eligibility:
An applicant must:
1. Be a U.S. citizen or eligible noncitizen.
2. Be a legal resident of Florida.
3. Enroll full-time at an eligible Florida or non-Florida public or private nonprofit postsecondary institution.
4. Submit an application in the same year in which he or she graduates from high school.
5. Be selected by the high school principal as the high school's nominee.
6. Eligible initial applicants will be awarded after all eligible renewal applicants. An equal number of initial scholarships will be awarded in each designated geographical area of the state. Priority will be given to eligible initial applicants who submit a completed initial application to the Office of Student Financial Assistance (OSFA) postmarked no later than April 15.

• FLORIDA WORK EXPERIENCE PROGRAM

Description:
The Florida Work Experience Program is a need-based program which provides eligible Florida students the opportunity to secure work experiences which are complementary to an reinforce the students' educational program and career goals.

Eligibility:
An applicant must:
1. Not have previously received a bachelor's degree.
2. Be a resident of the State of Florida.
3. Enroll in an eligible Florida public or private college or university for a minimum of six credit hours.
4. Demonstrate financial need by completing a "Free Application for Federal Student Aid" by the deadline specified by the institution.
5. Submit, if applicable, an application to the institution by the deadline established by the institution.
6. The amount of the award is determined by the institution's financial aid office.
7. A renewal applicant must have earned a minimum cumulative grade point average of 2.0 on a 4.0 scale.

• SEMINOLE AND MICCOSUKEE INDIAN SCHOLARSHIPS PROGRAM

Description:
The Seminole and Miccosukee Indian Scholarships Program provides financial assistance to Florida Seminole or Miccosukee Indian students who are enrolled as undergraduate or graduate students and demonstrate financial need. The amount of the award is recommended by the respective tribe but may not exceed the student's annual cost of education for a maximum of eight (8) semesters or twelve (12) quarters of undergraduate study or a maximum of four (4) semesters or six (6) quarters of graduate study, or the equivalent for less than full-time enrollment.

Eligibility:
An applicant must:

1. Be a member of or eligible for membership in either the Seminole Indian Tribe of Florida or the Miccosukee Indian Tribe of Florida.
2. Enroll as either an undergraduate or graduate student at an eligible Florida public or private college or university for a minimum of one (1) credit hour per term.
3. Demonstrate financial need as determined by the standards established by the respective tribe.
4. Submit an application for this program to the appropriate tribal higher education committee by the deadline specified by the tribe.
5. A renewal applicant must have earned a minimum cumulative grade point average of 2.0 on a 4.0 scale. Full-time students must have earned the equivalent of 12 credit hours for each term an award was received during that academic year.

- **VOCATIONAL GOLD SEAL ENDORSEMENT SCHOLARSHIP PROGRAM**

Description:
The Vocational Gold Seal Endorsement Scholarship Program provides scholarships to recipients of the Vocational Gold Seal Endorsement for enrollment in postsecondary degree or certificate programs. The maximum annual scholarship to each recipient is $2,000.

Eligibility:
An applicant must:

1. Receive a standard high school diploma with a Florida Vocational Gold Seal Endorsement from a Florida public high school.
2. Enroll in a degree or certificate program at an eligible Florida public or private college, community college, university, or postsecondary vocational, technical, trade or business school. A certificate program includes a diploma or specialized associate degree, such as an Associate in Applied Science (AAS). Certificate programs must be a minimum of 900 clock hours.
3. Enroll full time for a minimum of 12 credit hours per semester or quarter, or a minimum of 24 clock hours per week.
4. Not be a recipient of another state merit-based scholarship.
5. Submit an application for this program to the Office of Student Financial Assistance, Florida Department of Education, postmarked by April 1of the last year in high school.
6. A renewal applicant must have maintained a minimum cumulative grade point average of 3.0 on a 4.0 scale and earned the equivalent of 12 credit hours per term or 80% of the clock hours for which the recipient enrolled each term.

- **MARY MCLEOD BETHUNE SCHOLARSHIP**

Description:
The Mary McLeod Bethune Scholarship provides financial assistance to undergraduate students who meet scholastic requirements, demonstrate financial need and attend Bethune-Cookman College, Edward Waters College, Florida A&M University, or Florida Memorial College.

Eligibility:
An applicant must:

1. Have earned a minimum, unweighted cumulative grade point average of 3.0 on a 4.0 scale in high school.
2. Submit an application as specified by the institution by the deadline established by the institution.
3. Enroll at Florida A&M University, Bethune-Cookman College, Edward Waters College, or Florida Memorial College for a minimum of 12 credit hours per term.
4. Demonstrate financial need as specified by the institution.
5. The annual award to each recipient is $3,000 for up to eight (8) semesters of twelve (12) quarters.
6. A renewal applicant must have earned a minimum cumulative grade point average of 3.0 on a 4.0 scale and have earned the equivalent of 12 credit hours for each term an award was received during the academic year.

- **FLORIDA RESIDENT ACCESS GRANT (formerly State Tuition Voucher Program)**

Description:
The Florida Resident Access Grant (FRAG) provides tuition assistance to Florida undergraduate students attending an eligible independent, non-profit Florida college or university.

Eligibility:
An applicant must:

1. Not have previously received a bachelor's degree.
2. Enroll at an independent, non-profit Florida college or university accredited by the Commission on Colleges of the Southern Association of Colleges and Schools in a program of study other than divinity or theology for a minimum of twelve (12) credit hours per term.
3. Submit an application to the financial aid office

of the institution at which enrolled by the deadline established by institution.
4. The amount of the FRAG award cannot exceed total amount of tuition and fees charged by the institution.
5. A renewal applicant must have earned a minimum cumulative grade point average of 2.0 on a 4.0 scale, meet the institution's definition of satisfactory academic progress and earned the equivalent of 12 credit hours for each term an award was received during the academic year.

- **PAUL DOUGLAS TEACHER SCHOLARSHIP PROGRAM**

Description:
The Paul Douglas Teacher Scholarship Program provides financial assistance to outstanding high school graduates and college students who intend to pursue teaching careers at the preschool, elementary, or secondary school levels.

Eligibility:
An applicant must:
1. Be a U.S. citizen or eligible noncitizen.
2. Be ranked in the top 10% of the applicant's high school graduating class or earned a General Education Development (GED) score equivalent to ranking in the top 10% of GED graduates in Florida for the year in which the applicant's eligibility is determined. ***This requirement cannot be waived.***
3. Enroll full-time at any eligible accredited postsecondary institution in a program of study leading to initial teacher certification at the preschool, elementary or secondary level.
4. The amount of the scholarship is $5,000 per academic year or the cost of education, which ever is less. The scholarship may be received for a maximum of four years.
5. Students shall be eligible to continue to participate in the program if they continue to pursue postsecondary education as full-time students with the intent to teach.
6. A scholarship recipient is required to teach "in a public or private non-profit preschool, elemen tary or secondary school in any state," for two
(2) years for each year of an award. A recipient who teaches in a teacher shortage area as designated by the U.S. Department of Education is obligated to teach one year for each year of assistance.

- **NICARAGUAN AND HAITIAN SCHOLARSHIP PROGRAM**

Description:
The Nicaraguan and Haitian Scholarship Program provides financial assistance to one Nicaraguan and one Haitian student in Florida to attend a State University System institution.

The amount of the scholarship averages between $4,000 and $5,000. This award is not renewable. However, a person who has received the award may reapply in succeeding years.

Eligibility:
An applicant must:
1. Be a U.S. citizen or permanent resident living in Florida.
2. Be a Nicaraguan or Haitian citizen or have been born in Nicaragua or Haiti.
3. Meet Selective Service registration requirements.
4. Have a cumulative high school grade point average of 3.0 on a 4.0 scale or a 3.0 cumula tive grade point average for all college work attempted.
5. Demonstrate service to the community.
6. Submit an application for this program by the date specified by the Department of Education.

- **SCHOLARSHIPS FOR CHILDREN OF DECEASED OR DISABLED VETERANS OR CHILDREN OF SERVICEMEN CLASSIFIED AS PRISONERS OF WAR OR MISSING IN ACTION**

Description:
Scholarships for Children of Deceased or Disabled Veterans or Children of Servicemen Classified as Prisoners of War or Missing in Action provides financial assistance to full-time undergraduate students who are dependents of deceased or 100% disabled Florida veterans or servicemen classified as prisoners of war of missing in action during one of the wars, conflicts or events specified below. Veterans or servicemen must have been residents of Florida during the period for the war, conflict or event in which they served.

The amount of the scholarship is the cost of tuition and fees for two (2) semesters at the Florida public postsecondary institution which the student attends, for a maximum of eight (8) semesters of undergraduate study.

Persian Gulf War - (Aug. 2, 1990 and ending at a future date to be determined by Presidential Proclamation or Act of Congress

Operation Just Cause in Panama - (Dec. 1989)

U.S.S. Stark Attack - (May 17, 1987)

Newfoundland Air Tragedy - (Dec. 12, 1985)

Operation Urgent Fury in Grenada - (Oct. 23 - Nov. 2, 1983)

Multinational Peace Keeping Force in Lebanon - (Sept. 17, 1982 - Feb. 3, 1984)

Operation Eagle Claw, Iranian Rescue Mission - (April 25, 1980)

Vietnam Era - (Aug. 4, 1964 - May 7, 1975)

Korean Conflict - (June 25, 1950 - Jan. 31, 1955)

World War II - (Dec. 7, 1941 - Sept. 2, 1945)

World War I - (April 6, 1917 - July 2, 1921)

Eligibility:
An applicant must:

1. Not have previously received a bachelor's degree.
2. Be between the ages of 16 and 22.
3. Be a dependent child of a qualified veteran or serviceman whose official military and resi dency status is verified by the Florida Depart ment of Veterans' Affairs.
4. Enroll in a Florida public university, community college or vocational-technical center for a minimum of twelve (12) credit hours, or the equivalent, per term.
5. Submit an application for this program with letters of recommendation to the Executive Director of the Florida Department of Veterans' Affairs postmarked by April 1.
7. A renewal applicant must have earned a minimum cumulative grade point average of 2.0 on a 4.0 scale and have earned the equivalent of 12 credit hours for each term an award was received during the academic year.

• CRITICAL TEACHER SHORTAGE STUDENT LOAN FORGIVENESS PROGRAM

Description:
The Critical Teacher Shortage Student Loan Forgiveness Program provides financial assistance to eligible Florida teachers for the repayment of undergraduate and graduate educational loans which led to certification in a critical teacher shortage subject area.

Eligible teachers may receive up to a maximum of $10,000 toward repayment of the principal balance of their educational loans, at the rate of $2,500 per year for undergraduate loans and $5,000 per year for graduate loans. A renewal application, including all required documentation, must be submitted to the Office of Student Financial Assistance, Florida Department of Education, postmarked by July 15 of the renewal contract year.

Eligibility:
An applicant must:

1. Have graduated from an undergraduate or graduate teacher preparation program and have been certified to teach pursuant to any applicable teacher certification requirements.
2. Be certified in a critical teacher shortage subject area designated by the State Board of Education.
3. Be a full-time teacher in a critical teacher shortage subject area in a Florida public school.
4. Be teaching for the first time in a critical teacher shortage subject area if an initial applicant.
5. Complete a full year of teaching service as defined in Section 228.041(16), Florida Statutes, to be eligible for a full award.
6. Complete at least 90 days of teaching service to be eligible for one-half of a full award.
7. Not have received a loan under the "Chappie" James Most Promising Teacher Scholarship Loan Program, the Critical Teacher Shortage Scholarship Loan Program, the Masters' Fellowship Loan Program for Teachers, Florida Teacher Scholarship and Forgivable Loan Program, or the Paul Douglas Teacher Scholarship Program.
8. Submit an application for this program, including all required documentation, to the Office of Student Financial Assistance, Florida Department of Education, postmarked by July 15.

• FLORIDA TEACHER SCHOLARSHIP AND FORGIVABLE LOAN PROGRAM

Description:
The Florida Teacher Scholarship and Forgivable Loan Program is a student assistance program which is comprised of a two-year scholarship and a two-year loan program. The scholarship portion, "The "Chappie" James Most Promising Teacher Scholarship," provides scholarship assistance to lower division undergraduate students. The loan portion, "The Florida Critical Teacher Shortage Forgivable Loan," provides loan assistance to upper division undergraduate students and to graduate students, and may be repaid through teaching

teaching careers in critical teacher shortage subject areas in Florida public elementary and secondary schools. The amount of the scholarship is $1,500 per year for a maximum of two years.

The amount of an undergraduate loan may not exceed $4,000 per year for a maximum of two years. The amount of a graduate loan may not exceed $8,000 per year for a maximum of two years. Eligibility for all renewal awards is determined at the end of the second semester or third quarter each academic year. A scholarship or an undergraduate loan renewal applicant must have earned a minimum cumulative grade point average of 2.5 on a 4.0 scale, and must have earned 12 credit hours per term or the equivalent for the number of terms for which the award was received. A graduate renewal applicant must have earned a minimum cumulative grade point average of 3.0 on a 4.0 scale and must have earned a minimum of nine credit hours per term or the equivalent for the number of terms the loan was received.

Scholarship Requirements:
A scholarship applicant must also:

1. Attend an eligible public or private Florida high school.
2. Submit the scholarship application to the high school principal by March 1 during the senior year of high school.
3. Have a minimum cumulative unweighted high school grade point average of 3.0 on a 4.0 scale.
4. Be ranked in the top 25% in the seventh semester of the student's senior class.
5. Have test scores on either the American College Testing Program (ACT) or Scholastic Aptitude Test (SAT).
6. Have been an active member of a future teacher organization, if such an organization exists at the student's high school.
7. Be nominated by the high school principal.
8. Express an intent to teach in Florida public schools.

Loan Requirements:
A loan applicant must also:

1. Submit the loan application to the Dean or Director of The College of Education by March 15 for completion of Section E. The completed application must be sent to the Office of Student Financial Assistance, Florida Department of Education postmarked no later than April 1.
2. Be enrolled in a state-approved teacher preparation program which leads to certification in a critical teacher shortage subject area.
3. If an undergraduate student, be an upper division student, have scored at the 40th percentile or better on the SAT or ACT, and have earned a minimum cumulative grade point average of 2.5 on a 4.0 scale for all undergraduate work.
4. If a graduate student, have a bachelor's degree. Not have a bachelor's degree in education in a critical teacher shortage subject area. Have either earned a minimum cumulative grade point average of 3.0 on a 4.0 scale for all undergraduate work or scored a minimum of 1000 on the Graduate Record Examination (GRE). Not hold a teaching certificate in a critical teacher shortage subject. Not have received an undergraduate loan through this program.
5. Not have received a Paul Douglas Teacher Scholarship, a Critical Teacher Shortage Scholarship Loan, a "Chappie" James Most Promising Teacher Scholarship Loan or a Master's Fellowship Loan for Teachers.

This loan must be repaid either through teaching service or in cash.

- **CRITICAL TEACHER SHORTAGE TUITION REIMBURSEMENT PROGRAM**

Description:
The Critical Teacher Shortage Tuition Reimbursement Program provides financial assistance to full time Florida public school employees who are certified to teach in Florida and who are teaching or preparing to teach in critical teacher shortage subject areas approved by the State Board of Education. Applicants may receive tuition reimbursement for up to nine (9) semester hours, or the equivalent,per academic year at a rate not to exceed $78 per semester hour, for a maximum of 36 semester hours.

Eligibility:
An applicant must:

1. Be certified to teach in Florida and currently employed full-time in the Florida public school system.
2. Have earned credits applicable toward receipt of certification or endorsement in a critical teacher shortage subject area or toward receipt of an advanced degree in a critical teacher shortage subject area.
3. Earn a minimum grade of 3.0 on all approved courses.
4. Submit a completed application for this program to the Office of Student Financial Assistance,

Florida Department of Education, postmarked by the deadlines indicated on the application for each term for which reimbursement is requested.

- **NATIONAL SCIENCE SCHOLARS PROGRAM**

Description:
The National Science Scholars Program provides renewable scholarships to outstanding high school graduates who commit to a college major in one of the life, physical or computer sciences, math, or engineering areas. Two awards are given in each congressional district. Participation by minorities and people with disabilities is encouraged. All nominees must have outstanding academic achievement. The scholarship provides two awards per congressional district of up to $5,000 each. The scholarship may be renewed for up to four years if the student meets federally established renewal criteria.

Eligibility:
An applicant must:
1. Be a U.S. citizen or eligible noncitizen
2. Demonstrate potential to successfully complete a postsecondary program in the physical, life or computer sciences, math, or engineering.
3. Demonstrate outstanding academic achieve ment through a combination of grade point average and ACT or SAT scores.
4. Demonstrate intent to enroll at a postsecondary institution as a full-time undergraduate student for the purpose of receiving a baccalaureate degree in one of the scholarship fields.
5. Submit a scholarship application, a 500-word essay, a list of accomplishments, three letters of reference, and an official high school tran script by the application deadline date. Applica tion deadlines vary each year. Students should contact this office in January of their junior year in high school for application deadlines.

- **OCCUPATIONAL THERAPIST AND PHYSICAL THERAPIST LOAN FORGIVENESS PROGRAM**

Description:
The Occupational Therapist and Physical Therapist Loan Forgiveness Program provides financial assistance to therapist employed in Florida public schools for repayment of educational loans which assisted applicants in becoming licensed therapists. A full award may be up to $2,500 per year for undergraduate loans and up to $5,000 per year for graduate loans, for a maximum total annual award of $5,000. A therapist may receive an award for a maximum of four academic years or a total of $10,000, whichever comes first.

Eligibility:
An applicant must:
1. Be licensed or have a valid temporary permit as a therapist from the Florida Department of Business and Professional Regulation.
2. Declare an intent to be employed for a minimum of three (3) years as a licensed therapist in a Florida public school.
3. Have been employed as a therapist in a Florida public school for one full school year. An applicant who meets all other eligibility criteria and is employed for at least 90 days during a school year but not for the full 180 days, is eligible to be considered for up to one-half of a full award.
4. Not be a recipient of an award through either the Occupational Therapist and Physical Therapist Tuition Reimbursement Program, or Occupational Therapist and Physical Therapist Scholarship Loan Program.
5. Submit an initial application for this program, including all required forms and documentation, to the Office of Student Financial Assistance, Florida Department of Education, postmarked by July 15 during the first year of full-time employment as a therapist in a Florida public school.
6. Submit a renewal application, including all required forms and documentation, to the Office of Student Financial Assistance, Florida Department of Education, postmarked by July 15.

OCCUPATIONAL THERAPIST AND PHYSICAL THERAPIST SCHOLARSHIP LOAN PROGRAM

Description:
The Occupational Therapist and Physical Therapist Scholarship Loan Program provides financial assistance to eligible students who intend to become employed as therapists in a Florida public school. This loan may be repaid by working full time for a specified period of time as a therapist in a Florida public school. This loan must be repaid in cash if the recipient does not work in a Florida public school. The annual amount of the award is the cost of education, minus other student financial aid, up to a maximum of $4,000.

Eligibility:
An applicant must:
1. Be enrolled full time in a therapist assistant program, or an upper division or graduate level therapist program at an eligible Florida institu tion.
2. Declare intent to be employed for a minimum of three (3) years as a licensed therapist in a Florida public school.

3. Not be a recipient of an award through either the Occupational Therapist and Physical Therapist Tuition Reimbursement Program, or Occupational Therapist and Physical Therapist Loan Forgiveness Program.
4. Submit an initial application for this program, including all required documentation, to the Office of Student Financial Assistance, Florida Department of Education, postmarked by April 15.
5. An undergraduate renewal applicant must have earned a minimum cumulative grade point average of 2.0 on a 4.0 scale and have earned a minimum of twelve (12) credit hours per term, or the equivalent, for the terms for which the award was received.
6. A graduate renewal applicant must have earned a minimum cumulative grade point average of 3.0 on a 4.0 scale and must have earned a minimum of nine (9) credit hours per term, or the equivalent, for the terms for which the award was received.

- **OCCUPATIONAL THERAPIST AND PHYSICAL THERAPIST TUITION REIMBURSEMENT PROGRAM**

Description:
The Occupational Therapist and Physical Therapist Tuition Reimbursement Program provides financial assistance to eligible Florida public school therapists who take courses to improve their skills and knowledge.

Eligibility:
An applicant must:
1. Be licensed or have a valid temporary permit as a therapist from the Florida Department of Business and Professional Regulation. Applicants must provide proof of a valid license or temporary permit.
2. Currently be employed as a full time therapist in a Florida public school and have been em ployed as such for a minimum of three years.
3. Not be a recipient of an award through either the Occupational Therapist and Physical Therapist Scholarship Loan Program, or the Occupational Therapist and Physical Therapist Loan Forgiveness Program.
4. Submit a completed application for this pro gram, including all required forms and docu mentation, to the Office of Student Financial Assistance, Florida Department of Education, postmarked by the deadlines indicated on the application for each term for which reimburse ment is requested.
5. Participants may be reimbursed up to $78 per semester hour for up to an annual maximum of nine (9) semester hours, or the equivalent in quarter hours. Total reimbursement is limited to 36 semester hours, or the equivalent in quarter hours.

For further information on Occupational Therapist and Physical Therapy Scholarship/Loan/Tuition Reimbursement programs contact Dr. Cynthia Burton, BEES, Florida Department of Education, 622 Florida Education Center, Tallahassee, Florida 32399-0400. Phone : (904) 488-4246 or (SC) 278-4246.

- **ROSEWOOD FAMILY SCHOLARSHIP**

Description:
The Rosewood Family Scholarship Fund provides financial assistance for a maximum of twenty-five (25) eligible minority students to attend a state university, public community college or public postsecondary vocational-technical school. Students who are direct descendants of African-American Rosewood families affected by the incidents of January 1923 will receive priority for awards. The annual award is $4,000 or the cost of tuition and fees, whichever is less, for up to eight (8) semesters.

Eligibility:
An applicant must:
1. Be either Black but not of Hispanic, Asian, Pacific Islander, American Indian or Alaskan Native origin.
2. Not have previously received a bachelor's degree.
3. Enroll in a degree or certificate program at a state university, public community college or public postsecondary vocational-technical school in Florida.
4. Complete the "Free Application for Federal Student Aid" (FAFSA) to demonstrate financial need. The form must be submitted in time to be processed by the U.S. Department of Education by May 15. Allow approximately thirty (30) days for mailing and processing to meet the May 15 deadline.
5. If not a Florida resident applicant must submit a copy of the "Student Aid Report" (SAR), which is the report generated from the FAFSA to the Florida Office of Student Financial Assistance by May 15.
6. Submit an application for an award postmarked by April 1 of the year prior to the academic year or which the scholarship is sought.
7. A renewal applicant must have maintained a minimum cumulative grade point average of 2.0 on a 4.0 scale, and earned the equivalent of 12 credit hours per term or 80% of the clock hours for which the recipient enrolled each term.

FLORIDA'S COMMUNITY COLLEGE SYSTEM

OVERVIEW

Florida's 28 community colleges are an integral part of the state system of postsecondary education. They offer students preparation for transfer to a university and for entry into jobs requiring special skills. Students may earn an associate in arts (A.A.) or associate in science (A.S.) degree at the successful completion of a two-year program of studies. Spe-cialized vocational programs culminating in certificates are also offered in diverse areas such as laser optics, radiology, and law enforcement.

Currently, the Florida Community College System is composed of 28 colleges with over 101 sites and approximately 1,000 other service delivery centers. There are 802,796 enrolled students with over 203,000 enrolled in the associate in arts degree program. Most students in the Community College System are graduates of Florida high schools, including a large number of valedictorians and honors students.

The primary way that students gain access to the State University System is through the community colleges. Approximately 62% of the students in upper-division courses at the universities are com-munity college transfers. A statewide Articulation Agreement, which is a compact existing between the State University System and community colleges, provides assurance that a 2-plus-2 system will be effectively implemented in public postsecondary institutions. The agreement protects the credits earned by students during their freshmen and sophomore years at the community colleges. It assures that if a student completes the 2-year A.A. degree, admission to the State University System is guaranteed and that during the students enrollment as a junior and senior at the university, he or she will not be required to repeat courses already satisfactorily completed at a community college. A Statewide Course Numbering System, by which courses are classified and described, facilitates the review of similar courses in the colleges and universities. Such review, with careful advisement and the student's appropriate course registration, assures that the student will not enroll in courses providing the same content and the courses he or she completed to the satisfaction of another postsecondary institution or department. An Articulation Coordinating Committee, established by the Legislature, oversees all articulation activities and provides for student appeals.

In November 1992, the State Board of Community Colleges also signed an articulation agreement with the Independent Colleges and Universities of Florida. The Agreement established the provisions for the transfer of associate in arts degree students into private colleges and universities. The Agreement guarantees that community college associate in arts degree students will enter as juniors, receive 60 credit hours toward their baccalaureate degree, and receive recognition for the general education core taken at the community college. The Agreement has been recognized by 18 independent colieges and universities, including: Barry University, Bethune-Cookman College, Eckerd College, Edward Waters College, Embry-Riddle Aeronautical University, Flagler College, Florida Institute of Technology, Florida Southern College, Lynn University, Nova Southeastern University, Palm Beach Atlantic College, Ringling School of Art and Design, Rollins College, Saint Leo College,

Saint Thomas College, The University of Tampa, Warner Southern College and Webber College. The Agreement, believed to be the first in the country, provides additional opportunities for community college students to continue their education in a true 2+2 tradition.

The opening dates for the 28 community colleges are established statewide to coordinate with the calendar of the State University System. Semesters are arranged so that the first semester of each year ends just prior to Christmas. Abbreviated semester and summer terms are also utilized.

Community colleges also share responsibility with secondary schools in Florida for dual enrollment programs. These programs encourage advanced high school students to take courses for which they receive college credit. The credits are protected by the Articulation Agreement and will also transfer to state universities. Vocational education programs are also closely coordinated with high school offerings to ensure a smooth transition for vocational students from high school to community colleges.

Community colleges attempt to make students' entry into the system as pleasant and as smooth as possible. The cooperation and support of high school guidance counselors in facilitating this process is acknowledged and very much appreciated. The system tries to provide critical information for high school counselors so that they are in a position to provide current information about the Community College System to college-bound students.

On the following pages are tools which high school guidance counselors may find helpful toward assisting high school graduates who are interested in entering community colleges in Florida. Students interested in particular institutions or academic programs in the system should contact the registrar or director of admissions at the institution in which he/she wishes to enroll. In the meantime, the specific admission requirements for each community college can be found in this handbook.

POLICIES AFFECTING STUDENTS IN FLORIDA COMMUNITY COLLEGES

The following information is provided to call special attention to requirements, opportunities, and provisions about which students should be advised if they plan to attend one of the 28 community colleges in Florida. Although not all of the information will affect all students entering the colleges, the information is provided to encourage students to become more aware of educational opportunities and to plan their educational programs.

ADMISSION REQUIREMENTS

Generally, students holding a high school diploma or GED are eligible for admission to a community college. However, this varies depending on the program. Resident and nonresident students who receive high school diplomas after August 1, 1987, must have completed a secondary program which includes 4 years of English and 3 years each of mathematics, science, and social studies in order to be admitted to the A.A. degree program. Non-residents are exempt from this requirement if they receive passing scores on the entry-level placement test. IT IS STRONGLY ADVISED THAT STUDENTS WISHING TO ENROLL IN A COMMUNITY COLLEGE A.A. AND A.S. DEGREE PROGRAM TAKE THE SAME COLLEGE PREPARATORY COURSES DESIGNATED BY THE STATE UNIVERSITY SYSTEM TO FULFILL THE 4-3-3-3 REQUIREMENTS. (See the University section for the list of courses designated by the SUS to fulfill the 4-3-3-3 requirement.) Not completing the 4-3-3-3 curriculum does not preclude admission to the community college, simply to the A.A. degree program. A high school diploma is not required for admission to vocational certificate programs. (See Section 240.321(2), F.S.) All A.S. and A.A. degree-seeking, entering freshman are required to take a placement test in communication and computation skills. Students not passing the placement test are assigned to college or vocational preparatory, nondegree credit instruction offered by the college. Once a passing grade is attained, the student can be enrolled in a degree program.

DISABLED STUDENTS' ADMISSION

Effective May 12, 1987, each community college district board of trustees established substitute admission and graduation policies and procedures for students with certain disabilities which prevent the students from meeting requirements for admission to the institution, for admission to a program of study, for entry to an upper division, or for graduation. This provision exists for students determined to be hearing impaired, visually impaired, and/or learning disabled. (See Rule 6H-1.041, FAC.)

HOUSING

Two community colleges, Chipola Junior College and Lake City Community College, offer on-campus housing for a small number of students. However, information concerning both on-campus and off-campus housing is available at the community college.

COMMUNITY COLLEGE LIMITED ACCESS PROGRAMS

Some community colleges offer programs in which there are limited spaces available for students' enrollment. Admission to such programs is competitive and is generally based on high school grades, and in some instances on results of standardized tests. Students should consult with the individual colleges regarding limited access programs.

RESIDENCY AND TUITION

Students in Florida's community colleges pay a fee on a per-credit-hour basis. Student fees at community colleges are lower than the fees established in the State University System. Maximum fees are established by the State Board of Education based on legislative intent expressed in the annual Appropria-tions Act. Students who are not residents of Florida must pay out-of-state tuition. To qualify as a resident for tuition purposes, a student or his/her parents or guardian, must have established and maintained legal residence in Florida for at least 12 months prior to the student's registration at a community college. The student or his parents/guardian must further provide proof that the student's presence in the state is not solely for the purpose of attending an institution of higher education. (See Section 240.1201, F.S.)

ACCELERATION

Students may receive full credit for satisfactory completion of articulated programs designed to allow students to proceed toward their educational objectives as rapidly as their circumstances permit. The mechanisms by which students may accelerate include satisfactory completion of national standard-ized tests, i.e., CLEP (College Level Examination Program) and PEP (Proficiency Examination Program); institutional or departmental examinations for which credit for courses can be awarded; secondary school Advanced Placement Programs of the College Board; dual enrollment in a community college or university prior to graduation from high school or community college; early admission; International Baccalaureate Program; demonstration of competency achieved through experiential learning; or any combination of the above. (See Rule 6A-14.031, FAC.)

IMMUNIZATION

No statewide policy exists regarding immunization of students in the community colleges. Rather, immunization policies are established for the community colleges by their individual boards of trustees. Students should be advised to inquire about immunization requirements upon applying for entry to one of the 28 colleges.

COLLEGE-LEVEL INSTRUCTION AND TESTING

Students must demonstrate mastery of college-level competencies in communication and computation subject areas before graduating from Florida community colleges or universities. Beginning January 1, 1996, students can demonstrate these competencies and be EXEMPT from taking the College-Level Academic Skills Test (CLAST), an examination measuring the student's attainment of specified college-level communication and communication skills, by fulfilling one of the following criteria: 1) obtaining a passing score on a nationally standardized examination; 2) receiving a passing score on the college placement test and a high school cumulative GPA of 3.0 or above on designated high school college prep courses; or 3) obtaining a passing score on the college placement test and cumulative GPA of 2.5 or above in postsecondary-level coursework.

Community college students intending to transfer to a public university must satisfy a university admission requirement of completion of two credits of sequential high school foreign language instruction or the equivalent before entering the university. This requirement is set forth in Florida Statute, Section 240.233(1)(b), which states all students shall have two years of a high school foreign language or its equivalent in order to be admitted to any one of Florida's nine public universities. Eight (8) to ten (10) community college credits in one (1) foreign language is equivalent to two years of study at the high school level and will meet the university foreign language requirement for admission. An alternate method for students to demonstrate equivalent foreign language competence is by means of foreign language examinations published by The College Board under the title of MAPS or CLEP.

DEGREES AND CERTIFICATES AWARDED

The Associate in Arts (A.A.) degree is the transfer degree of the community colleges. It is the primary basis for admission of transfer students for upper division study in a state university. The A.A. degree is awarded upon completion of 60 college credits (including 36 credits in the liberal arts and sciences); achievement of a grade point average of 2.0 in all courses attempted and in all courses taken at the institution awarding the degree; completion of specified college-level English and mathematics courses; and demonstrated mastery of college-level competencies in communication and computation (See Rule 6A-10.024, FAC.)

The award of the A.A. degree is based partially upon satisfaction of specific college level English and mathematics courses. The specific courses as indicated in Rule 6A-10.030, FAC, include 12 credits of English course work in which the student is required to demonstrate writing skills and produce written work of at least 24,000 words and 6 credits of mathematics course work at the level of college algebra or higher. (See Rule 6A-10.030, FAC.)

The Association in Science (A.S.) degree is earned through a student's satisfactory completion of a planned program of instruction consisting of college level courses to prepare for entry into employment. The A.S. degree is awarded upon satisfactory completion of at least 60 college credits and demonstration of the attainment of predetermined and specified performance requirements. (See Rule 6A-14.030, FAC.)

The Vocational Certificate is awarded to a student who satisfactorily completes a planned program of instruction consisting of noncollege-credit postsecondary adult vocational courses. The courses in vocational certificate programs are provided to prepare for entry into employment, as in the area vocational-technical centers assigned to public school boards. Vocational certificates are provided by some colleges only. (See Rule 6A-14.030, FAC.)

FINANCIAL AID

Community college policies encourage and support every effort to remove financial barriers to pursuing postsecondary education. Therefore, each community college has a student financial aid office which provides assistance to students who have proven financial need. Several types of assistance including scholarships and grants, loans, and student employment are available through state, federal, and local sources for students in need of financial aid.

COLLEGE AND VOCATIONAL PREPARATORY INSTRUCTION

First-time-in-college students who intend to enter degree programs must achieve the minimum cut-off scores for each subject area identified on one of the following approved tests before being permitted to enroll in college-level courses in the curriculum areas tested:

FLORIDA COMMON ENTRY-LEVEL PLACEMENT TEST, ACT, ENHANCED ACT, OR SAT

Community college students who do not achieve the specified cut-off scores on the tests designated above must receive instruction in the approved college preparatory courses which will assist the students in developing the level of academic skills deemed necessary for successful completion of college-level courses. Satisfactory completion of the college preparatory courses yields no credit toward a degree. Students must understand, however, that college preparatory courses are designed and provided to assist them in developing the academic skills required to successfully complete college level courses. (See Rule 6A-10.0315, FAC.)

A student who is enrolled in a postsecondary adult vocational program of 450 clock hours or more must be tested via one of the examinations designated by law for determination of whether the student lacks the minimal level of basic skills needed for successful completion of the vocational program in which the student is enrolled. The designated examinations for assessment of a student's mastery of basic skills are:

- ***American College Testing Career Planning Program - Short Form of Assessment Booklet***
- ***Comprehensive Test of Basic Skills - Levels HJ (7-12 grade levels)***
- ***Test of Adult Basic Education - 1967 Edition, Forms 1 and 2***
- ***Wide Range Achievement Test - Level 2***

Students deemed to lack the minimal level of skills as measured by the above tests must enroll in vocational preparatory courses designated to correct the student's deficiency. Upon completion of the instruction, students may be retested using the same examination administered for initial testing. The specific level of basic skills necessary in mathematics and language are defined in each vocational program description adopted under Rule 6A-6.0571, FAC. (See Rule 6A-10.040, FAC.)

VOCATIONAL PROGRAMS OFFERED IN FLORIDA COMMUNITY COLLEGES

Each Florida community college offers a common program of instruction leading to the A.A. degree. Vocational programs leading to the award of the A.S. degree or a vocational certificate vary from institution to institution. On the table which appears on the following pages, the specific A.S. degree and certificate programs offered in the Community College System are listed by abbreviated college title. In addition, 14 community colleges are also designated area vocational-technical centers, along with 36 vocational-technical centers administered by the public schools. Specific information for each of the community college area centers can be found in the section on Designated Area Vocational Schools (Administered by community/junior colleges). The following are the official titles of the colleges referenced on the table:

COLLEGES

BREV	Brevard Community College
BROW	Broward Community College
CFLA	Central Florida Community College
CHIP	Chipola Junior College
DAYT	Daytona Beach Community College
EDIS	Edison Community College
FJAX	Florida Community College at Jacksonville
FKEY	Florida Keys Community College
GULF	Gulf Coast Community College
HILL	Hillsborough Community College

CFCC serves students primarily from Marion, Citrus, and Levy counties at the Ocala Campus on State Road 200 near I-75, the Citrus County Campus on State Road 41, two miles south of State Road 44, and the Levy County Campus at 1015 North Boulevard in Chiefland.

Proof of high school graduation or successful completion of the GED is required.

All first-time-in-college, degree-seeking students must present one of the following placement test scores prior to registration: ACT, ASSET, CPT, MAPS, or SAT. If neither test has been taken, please contact the CFCC Testing Office (904) 237-2111.

A wide range of Associate in Arts degree programs is available for students planning to transfer to a four-year college or university. Associate in Science degrees are awarded in programs designed to train students for entry employment in various areas of business and industry.

❖ **ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS**

Chipola Junior College is a comprehensive community college dedicated to its students and the community. The curriculum is designed to serve people in three major areas: general and pre-professional classes for transfer to other colleges and universities, vocational-technical instruction and continuing education.

Chipola Junior College encourages high school graduates to choose Chipola to ease the transition from high school to higher education. Special services are available for the handicapped, for returning women, and for people in specialized areas such as law enforcement, fire fighting, banking, and law and government.

Chipola Junior College participates in intercollegiate athletics as well as intramurals for men and women and they are an integral part of life at Chipola. We are a member of the NJCAA and FCCAA. The college actively supports its athletics programs including basketball, baseball, and softball.

❖ **ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS**

All Associate in Arts and Science and college credit certificate programs require a standard high school diploma or GED equivalent prior to admission. All new students are required to take the DBCC placement test or submit ACT/SAT test results if taken within the last three years.

Tuition fees are based on the student's residency status. In-state tuition is available for those students who can document their permanent Florida residency by submitting the Florida Residency Affidavit.

Please note that out-of-state tuition fees and cost of attendance is higher. For more information, please contact the Admissions Office.

Application fee waiver?
_____ Yes _____ No

Average cost per undergraduate credit hour for part-time students: $36.67 (in-state)
(Note: Additional fees may apply.)

❖ **ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS**

We have an open door admission policy. Students must have proof of a high school diploma, GED, or transfer credits to be admitted for an Associate in Arts degree and some limited access programs. A student applying for a limited access program must check with the division and meet specific eligibility requirements.

Some Associate in Science and certificate programs have additional admission requirements. Students should check with the appropriate division for additional requirements.

Financial aid rolling deadlines are through the year for most financial aid programs. Submit SAR six weeks before semester begins to the Financial Aid Office for aid to be used at the beginning of the semester.

All new students must take the GCCC placement test and transfer students may also be required to take the GCCC placement test. Consult the Admissions Office or an advisor for further information. Testing information call (904) 769-1551, ext. 4857.

❖ ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS

Open door policy, first-come, first-serve basis for any applicant who meets one of the following criteria:

1. Graduated with a standard diploma from a secondary school accredited by one of the six regional accreditation agencies.
2. Possesses a high school equivalency certificate or diploma.
3. Applies as a special student without a high school diploma or equivalency certificate or graduated from a non- accredited high school.
4. Applies as a transfer student.
5. Applies as a transient student.

International students must submit a financial statement form, score 500 or higher on the TOEFL or successfully complete the 109 level of the ESL or level 5 of ALA, submit an official transcript and a certified English translation of high school and postsecondary transcripts from one of the evaluation services recognized by the National Association for Foreign Student Affairs (NAFSA), and proof of health insurance which must be valid for one year.

All new students are required to attend an orientation and take a placement test unless they have ACT or SAT scores. After completing the orientation and testing, they meet individually with an academic advisor or counselor to plan their program and register for classes.

❖ **ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS**

The following persons are eligible for admission to Miami-Dade Community College.

College Credit Programs
1. High school graduates or persons holding high school equivalent (GED) diploma.
2. Transfer students from colleges, universities and other postsecondary institutions.
3. Foreign students with education equivalent to U.S. secondary school education and meet language standards established through college policy.

Vocational Credit Programs
1. High school graduate or at least 16 years of age and have left high school.
2. Provide a social security number.

Through its open door policy, Miami-Dade provides educational opportunities to all, regardless of sex, race, religion, marital status, age, national origin, handicaps or financial resources.

The instructional program is designed to prepare students for the upper-division of senior colleges and universities, or for immediate entry career fields. Courses are also offered to meet students' personal interest or to upgrade their occupational skills.

Seminole Community College offers the two-year Associate in Arts degree program for university transfers, the Associate in Science degree in 22 occupational areas for students who wish to enter business or industry with a two-year degree, a one-year college technical certificate in four occupational areas, the Applied Technologies Vocational Certificate in 21 occupational areas, and a comprehensive Adult and Continuing Educational Program through the Open Campus.

Seminole Community College admits students in the following categories:

1) Florida public high school graduates or other high school graduates who meet state admissions guidelines
2) GED graduates - high school equivalency completion
3) post graduate/non degree seeking students
4) special students - course takers
5) teacher recertification
6) transient students
7) foreign students with appropriate TOEFL scores and documentation.

Information for health related program applicants: Persons seeking 1996 entry into Nursing (RN), Dental Hygiene, Emergency Medical Technology (EMT), Paramedic and Respiratory Therapy programs should begin the application process during the 1995 fall semester. These are limited access programs and have special admissions requirements and dates.

Application deadlines for these limited access programs are as follows:

RN (LPN Advanced Entry)	February 5, 1996
Registered Nursing	February 1, 1996
Paramedic Technology	March 11, 1996
Respiratory Therapy	April 8, 1996
Dental Hygiene	May 13, 1996
Emergency Medical Technology	July 5, 1996

Applicants should contact the Division of Applied Sciences for further information regarding admissions procedures.

THE STATE UNIVERSITY SYSTEM OF FLORIDA

DESCRIPTION OF THE STATE UNIVERSITY SYSTEM

The State University System (SUS) of Florida is governed by the Florida Board of Regents and includes nine universities, some with branch campuses and off campus centers. The SUS is committed to providing educational opportunities of the highest quality for the state's residents. Each of Florida's nine public universities offers baccalaureate and selected graduate degrees. Each institution is accredited by the Southern Association of Colleges and Schools (SACS), and most of the specialized and professional programs are also accredited by accrediting organizations. Information on the degree programs (majors) provided by each of the individual universities is available directly from the admissions offices of the universities.

THE SUS IS A LIMITED ACCESS SYSTEM

The state universities have a limit on the number of new students who may be admitted at the freshman level. As a result of the limits placed on the institutions by space, faculty, resources, and policy, a number of qualified students may, of necessity, be denied admission to one or more of the state universities but may be accepted for admission by others. Tables showing admissions statistics are presented following the list of high school courses at the end of this section.

POLICIES AFFECTING STUDENTS IN STATE UNIVERSITIES

SPECIAL ASSISTANCE FOR HANDICAPPED STUDENTS

Special provisions have been made for the hearing impaired and the visually impaired and for those with specific learning/disabilities, who by reason of their disability, are unable to meet certain academic requirements (see Rule 6A-10.041, FAC). A disabled student may be eligible to complete certain university admission, examination, course, or graduation requirements with a reasonable substitution as determined by the university. Such students should contact the admissions office while in high school to coordinate completion of the university admissions requirements with the high school graduation requirements.

ARTICULATION WITH FLORIDA COMMUNITY COLLEGES

Many students are admitted to the state universities as transfers from Florida's public community colleges after completing an Associate of Arts (AA) degree. The transfer of students who have earned the AA degree in a Florida community college is governed by the terms of an Articulation Agreement between the State University System of Florida and the Florida Board of Community Colleges. The Agreement guarantees a Florida public community college AA graduate admission as a junior into a state university. However, there are some admissions limits placed on specific programs within each university. (See Limited Access Programs). A student transferring to a state university without first completing the AA degree must meet the admissions requirements which are applicable to first-time-in-college students. (See Rule 6A-10.024,FAC).

ENTRY-LEVEL PLACEMENT

All first-time-in-college applicants will be tested in reading, writing, and mathematics. Students who fail to meet state or university standards on the entry-level placement tests will be placed in college preparatory courses which do not count towards fulfillment of graduation requirements. (See Rule 6A-10.0315, FAC).

CLAST AND GORDON RULE

The College Level Academic Skills Test (CLAST) is a required examination in communication and computation which must be taken before a student has completed 60 credits of college instruction. (See Rule 6A-10.031, FAC). In addition, each undergraduate student will be required to complete at least four English Composition courses, each of which requires 6,000 or more words of composition. Each undergraduate student must also complete six semester hours of Mathematics course-work at the level of College Algebra I or higher. (See Rule 6A-10.030,FAC, also known as the Gordon Rule). Students having certain types of disabilities may request test modification. Disabled students should read the applicable information in the CLAST packet and discuss their needs with the university's test administrator or office for disabled students.

THE STATE UNIVERSITY SYSTEM OF FLORIDA

FEEDBACK REPORTS TO HIGH SCHOOLS

The Department of Education is required to provide postsecondary feedback reports to Florida high schools on the eduational progress of their high school graduates at the universities. The reports to the high schools on the individuals are based on scores on the entry-level placement tests. (See Rule 6A-10.038,FAC)

RESIDENCY STATUS FOR FEE-PAYING PURPOSES

A student's residence at the time of admission determines the amount of tuition which must be paid each semester. A residency statement for fee-paying purposes, included in the admissions application packet, must be completed and returned to the university according to the instructions in order for a student to be considered for classification as a Florida resident for fee-paying purposes. (See Rule 6C-7.005,FAC).

FINANCIAL AID

Each of the universities have programs for Financial Aid. The Admissions Information Sheets list the university's contact person.

HOUSING

Each of the universities has on-campus student housing. The Admissions Information Sheets list the university's contact person.

MEASLES AND RUBELLA IMMUNITY

Each student is required to provide documented proof of immunity to measles and of immunization against rubella prior to the student's registration. Instructions for documenting this information are included on the admissions forms. The documentation should be submitted as soon as possible to avoid denial or cancellation of registration. (See Rule 6C-6.001,FAC).

LIMITED ACCESS PROGRAMS

Some academic degree programs are designated as limited access programs and require completion of specific courses, higher grade point averages, or other specific criteria for admission at the junior level. Florida public community college graduates with AA degrees will be considered for admission into limited access programs at the universities using the same criteria as for university students who have completed their sophomore year. Students wishing to transfer into a limited access program are advised to contact the program director at the university well before completion of the AA degree to obtain the list of admissions requirements into the specific program. (See Rule 6A-10.024,FAC). The university catalog should also have a general description of their admissions requirements. The Academic Degree Programs Inventory has identified the limited access programs with shading.

ACCELERATION MECHANISMS

Credit may be given for examinations in lieu of college courses for achievement of specified minimum standard scores on Advance Placement (AP), College Level Examination Program (CLEP), Proficiency Examination Program (PEP), International Baccalaureate (IB), and other examinations accepted by the university, college, school, or academic department. The transfer of credit earned on the basis of examinations is regulated by the Articulation Agreement (See Rule 6A-10.024,FAC). Other acceleration mechanisms include dual enrollment and early admissions. In dual enrollment, an eligible high school student may enroll also in postsecondary courses which may earn credits towards both college and the high school diploma. Early admissions is a form of dual enrollment except that the student who is working towards a high school diploma enrolls full time at the postsecondary institution. The courses are creditable towards both the high school diploma and the associate or baccalaureate degree (See FS 240.116). For more information, refer to accelerated mechanisms in the university catalog.

ADMISSIONS POLICIES FOR THE STATE UNIVERSITIES OF FLORIDA

STATE LEVEL MINIMUM ADMISSIONS POLICIES

The Florida Board of Regents has established minimum state level admissions policies for first-time-in-college students and for students transferring without having AA degrees from Florida public community colleges. These policies include a list of required high school academic courses considered to be the best preparation for entry to college (See Rules 6C-6.001 and 6C-6.002, FAC). These requirements are minimum state standards applying to all nine universities. Higher admissions standards may be required by each university. The "Freshman Admission Information" sheets in the next section will specify university requirements that differ from the State minimum requirements.

1. **HIGH SCHOOL GRADUATION**. Graduation from an accredited high school or the equivalent (GED), etc. is required. An applicant from a non-traditional program must present credentials as described in Rule 6C-6.002 (3), FAC, and will be judged by the individual university.

2. **HIGH SCHOOL GRADE POINT AVERAGE AND ADMISSIONS TEST.** The high school grade point average (HSGPA) will be based on a 4.0 score recalculated by the university from grades earned in high school academic core courses (see list on the following pages). Additional weights are normally assigned to grades of D or better in Honors, Advanced Placement, International Baccalaureate, and other advanced courses. The following chart summarizes the weighting policies of the state universities.

ADDITIONAL GRADE POINTS ASSIGNED TO SPECIALLY DESIGNATED COURSES FOR CALCULATING WEIGHTED AVERAGE H. S. GPAS IN ACADEMIC CORE COURSES

University	Honors Course	Advanced Placement Course	International Baccalaureate Course	Advanced Course
FAMU	1	1	1	1
FAU	1	1	1	1
FIU*	1	1	1	1
FSU*	1	1	1	1
UCF	1	1	1	1
UF*	0.5	1	1	0.5
UNF	0.5	1	1	0.5
USF	1	1	1	1
UWF*	1	1	1	1

** for a grade of C or better*

Eligibility for admission will be determined on the basis of the high school grade point average in the academic core courses (calculated according to the policies of the university) and the SAT (or ACT) score using the following sliding admission scale.

STATE UNIVERSITY SYSTEM SLIDING ADMISSION SCALE

In order to determine admission eligibility, a student's grade point average (GPA) will be calculated by the university to which the student applies. The GPA to determine eligibility for admissions will be calculated on only the "required academic core courses" listed on following pages. A student applying for admission who has a satisfactory high school record, including a "B" average (3.0 on a 4.0 scale) in the required high school academic core courses offered in grades 9 through 12, should submit SAT or ACT scores and other evidence of expected successful academic progress in the university to show eligibility for admission. If an applicant's recalculated GPA is less than 3.0, the following sliding scale will be used to determine eligibility. A sliding scale allows the opportunity for an applicant to balance a low GPA with a high test score or to balance a low test score with a high GPA.

ADMISSIONS POLICIES FOR THE STATE UNIVERSITIES OF FLORIDA

SUS SLIDING ADMISSIONS SCALE

If GPA in Academic Core Courses is:	One of the following admissions test scores must equal or exceed:		
HS GPA	ACT *	SAT or	Recentered SAT I**
2.0	25	1050	1140
2.1	24	1020	1110
2.2	23	990	1090
2.3	22	960	1060
2.4	22	930	1030
2.5	21	900	1010
2.6	21	890	1000
2.7	21	880	990
2.8	20	870	980
2.9	20	860	970
3.0	***	***	***

*ACT exam taken during or after October 1989
**SAT I exam taken after March 1995
***Academic eligibility for admission is determined by a 3.0 or better GPA and submission of admissions test scores.

COMPETITIVE ADMISSION PRACTICES

Admission into Florida's state universities is limited by space available. The degree of competition for space depends on the number and qualifications of those who apply for admission. To increase the chance of admission, high school students should try to exceed the minimum requirements. (See chart for admissions statistics)

EXCEPTIONS TO MINIMUM ADMISSION REQUIREMENTS

The majority of students are admitted on the basis of their past academic achievement and admissions test scores in relation to the minimum requirements. Universities are allowed the flexibility to admit a limited number of students as exceptions to the minimum requirements, through the recommendations of appropriate faculty committees. Exceptions may be made on the basis of important attributes or special talents of individual applicants who may not qualify for admission based only on their academic records and admissions test scores, but may demonstrate potential for success in college (See Rule 6C-6.002,FAC). Applicants should provide information regarding other important attributes, or special talents along with their application.

SUBSTITUTIONS OF REQUIREMENTS FOR DISABLED STUDENTS

An individual with a visual impairment, hearing impairment, or specific learning disabilty, may wish to be considered for admission on the basis of a reasonable substitution of an admissions requirement. Information is available from the university's office of admissions. (See Rule 6C-6.002(3)(d),FAC)

3. HIGH SCHOOL COURSE DISTRIBUTION REQUIREMENTS. Students must complete 19 units of high school work distributed over an approved range of subject areas. Students would complete courses from the list of Academic Core Courses and Approved Electives in order to meet the following course distribution requirements.

SUS COURSE DISTRIBUTION REQUIREMENTS

A.	ACADEMIC CORE COURSES IN DESIGNATED SUBJECT AREAS	
	ENGLISH	4 units (3 with substantial writing)
	MATHEMATICS	3 units (Algebra I and above)
	NATURAL SCIENCE	3 units (2 with substantial lab)
	SOCIAL SCIENCE	3 units
	FOREIGN LANGUAGE	2 units (in the same language)
B.	APPROVED ELECTIVES	4 units (from the following list)
C.	TOTAL ACADEMIC UNITS REQUIRED	19 units

ADMISSIONS POLICIES FOR THE STATE UNIVERSITIES OF FLORIDA

HIGH SCHOOL COURSES WHICH SATISFY THE COURSE DISTRIBUTION REQUIREMENTS

The courses listed on the following pages are the preferred "college prep" courses. They are the ones which best prepare students to do university level work and carry the most weight in the competitive admissions process. Any course marked with an asterisk (*) may also be used for meeting state requirements for credit in the designated subject areas for graduation from high school, according to the Florida Department of Education Course Code Directory. The equivalent of the courses listed which have been taken in schools outside the Florida public school system may also satisfy the state's minimum requirements for admissions into the state universities of Florida.

ENGLISH COURSE REQUIREMENTS (Academic Core Courses in English)

POLICY: A State University System freshman applicant must have four academic units in English, three of which must have included substantial writing requirements. The following courses are the "college prep" courses which include these writing requirements. Students planning to attend a university should complete courses from this list.

Course Number	Course Title	Course Number	Course Title

FOREIGN LANGUAGE REQUIREMENTS (Academic Core Courses in Foreign Languages)

POLICY: A State University System freshman applicant must have two academic units in Foreign Language, both of which must be in the same language. Credits in American Sign Language may substitute for this admissions requirement, but will not count as credit for a university graduation requirement in foreign language. The following courses meet the high school Foreign Language requirement. The preferred "college prep" courses in Foreign Language are marked with a plus sign (+). A student who does not take foreign language in high school, may take 8-10 semester credits of a foreign language (or American Sign Language) at a community college or may pass an appropriate exam. A student admitted to a state university as an exception to this admissions requirement, must make up the credits in a foreign language prior to graduation.

APPROVED ELECTIVE COURSES

POLICY: Any freshman applicant to the State University System must have four additional academic high school credits or electives. These four electives are in addition to the required four units in English, three units in Mathematics, three units in Natural Science, three units in Social Science, and two units in Foreign Language.

The courses described in the following paragraphs may be used to satisfy the four units of electives requirement.

1. Any courses in Language Arts and English, Mathematics, Science, Social Studies or Foreign Language listed in the Florida Department of Education Course Code Directory for grades nine or above, and which will satisfy state credit requirements for high school graduation, may be used toward the four required elective units. These are the preferred electives. Because of the competitive nature of university admissions, most of the students admitted have impressive high school records with electives from these five academic areas.

2. Up to two credits in any of the Fine Arts (Art, Dance, Drama, Music) as specified in the Senior High Adult section of the Course Code Directory. The 1/2 credit in Performing Fine Arts required for high school graduation must be included in this allowance.

3. Any Humanities courses listed in the Course Code Directory for grade nine or above.

4. Any Computer courses in the areas of application, programming, or graphics listed in the Course Code Directory for grades 9 or above.

5. Any dual enrollment courses for which both high school and postsecondary credits are granted as specified in the Course Code Directory pursuant to Section 232.081(1)(h),FS.

6. Up to one credit in any Executive Internship course as listed in the Course Code Directory for grade nine or above.

7. Up to one credit in any course listed in the Leadership Skills Development section or the ROTC section of the Course Code Directory for grade nine or above.

8. Up to one credit in any Research course listed in the Research section of the Course Code Directory for grade nine or above.

9. Up to two credits in any Vocational Education courses listed in the Course Code Directory for grade nine or above. The 1/2 credit state requirement in Practical Arts Vocational Education or Exploratory Vocational Education for high school graduation must be included in this allowance, and should be interpreted as being in addition to the allowance for computer courses even though the computer course may be listed in the Vocational Education section of the Course Code Directory.

10. Up to one combined credit in Physical Education and in Health or Life Management Skills (1/2 credit each) as specified in the Course Code Directory and required for high school graduation.

❖ ESTIMATED ANNUAL EXPENSES FOR FULL-TIME STUDENTS TAKING AN AVERAGE COURSE LOAD

For Fall and Spring Semesters:		*For Summer Semester:*	
30 Credit Hours		6 Credit Hours	
Tuition and Fees:	$1,859	Tuition and Fees:	$ 404
Room and Board:	$2,822	Room and Board:	$ 600
Books:	$ 600	Books:	$ 150

Average cost per undergraduate credit hour $60. (There may be additional activities and health fees.)

❖ ADDITIONAL FRESHMAN INFORMATION

Florida A&M enrollment exceeds 10,000 and receives over 5,000 Freshmen applications for Fall admission. Approximately 50% are admitted and 60% of the admitted enroll.

Florida A&M University will admit all students who meet the BOR minimum admissions criteria. Alternative admissions may be granted to those freshmen applicants who do not meet the minimum admission requirements based on test scores, units, and grade point averages. Students with Learning Disabilities should apply early to allow adequate time for evaluation. Contact the Learning Development Education Center (599-3180).

Credit is given for dual enrollment courses with grades of at least "C". Earning less than a 2.00 GPA in dual enrollment courses will not jeopardize admission to FAMU. Grade point averages are computed by FAMU for college preparatory courses and some electives. Additional weight is given for Honors, Advanced Placement, and International Baccalaureate courses.

Students interested in various programs (i.e., athletics, music, band, theatre) should contact the area directly for information. Financial aid awards are made in the order in which financial aid files are completed and all documents required to make a determination of eligibility are received. Aid will not be awarded until an applicant has been admitted.

Students with at least a 1100 (SAT-I) or 20 (ACT) and 3.30 GPA are encouraged to contact the Office of Presidential Scholars (599-3147). The Office of Student Orientation (599-3869) offers campus tours by appointment, new students preview (March), and Total Orientation Program for new students (TOPS) in July. Housing contracts are mailed to students when admitted and the deadline for applying for Fall is June 1.

FAMU accepts students for the Fall, Spring, and Summer.

❖ **ESTIMATED ANNUAL EXPENSES FOR FULL-TIME STUDENTS TAKING AN AVERAGE COURSE LOAD**

For Fall and Spring Semesters:		*For Summer Semester:*	
30 Credit Hours		6 Credit Hours	
Tuition and Fees:	$ 1,800.00 *	Tuition and Fees:	$ 360 *
Room and Board:	$ 4,160.00 *	Room and Board:	
Books:	$ 600.00	Books:	

Average cost per undergraduate credit hour $59.59.(There may be additional activities and health fees.)
* Tuition includes activity and health fees.

❖ **ADDITIONAL FRESHMAN INFORMATION**

Florida Atlantic University welcomes students whose academic backgrounds indicate the motivation and preparation to succeed in a demanding college curriculum. Applicants who meet the State Level Minimum Admissions criteria are offered admission on a rolling basis. Others may be requested to submit additional evidence of motivation and preparation or of special talents or achievements which are reviewed by the faculty Admissions Committee. Students with Learning Disabilities or other disabilities should contact the Office of Admissions early in order to receive full consideration. Letters of recommendation will be requested if considered necessary. Campus visits are encouraged.

Students may apply for Fall, Spring or Summer admission. Summer applicants should file prior year financial aid applications for summer eligibility.

Music, Theatre and Art students should contact these departments for interviews, auditions or portfolio reviews. New Schmidt Arts Center opening in December, 1994 will offer outstanding environment for creative development of students and showcasing of student talent.

Honors Program entry by invitation or by application. Early Admission requires 3.5 GPA and 1100 SAT. Non-need based scholarships available - contact Office of Admissions. Athletic (Division I) scholarships and performing arts scholarships also available.

Campus tours daily. Contact Office of Admissions for schedule and more information. Toll-free number: 1-800-299-4FAU (1-800-299-4328).

❖ ADDITIONAL FRESHMAN INFORMATION

Florida International University is recognized as one of the Southeast's top centers for higher education, scholarly research, and technological activity. With a current enrollment of over 26,000 students, FIU is the largest public university in South Florida and the fourth largest university in the state. FIU offers over 200 academic degree programs at both the graduate and undergraduate levels, and boasts 26 interdisciplinary centers and institutes, providing research, scholarly writing conferences and symposiums, and classes. The University also serves as a significant resource of intellectual, cultural and research activity for the South Florida business, educational, artistic, and civic communities.

Admissions - All qualified students are encouraged to apply. Admissions is based upon SAT or ACT scores and high school record. Preference will be given to students whose academic credentials indicate the greatest promise for success. Applicants who meet the BOR minimum criteria will be considered on a rolling admissions basis. Applicants who do not meet the BOR minimums will be reviewed by the Admissions Committee on a case-by-case basis. Students are also considered with regards to special attributes, talents, and circumstances. Music, Art, Theater, and Dance majors should contact the respective department for interviews, auditions, and portfolio reviews.

Scholarships
$5,000-$3,000 per year: National Merit, Achievement, or Hispanic Finalist, Semifinalist, or Honorable Mention.
$1,600-$500 per year: Faculty Scholars (3.5 GPA/1270 SAT or 28 ACT), University Scholars (3.0 GPA/1140 SAT or 25 ACT); Academic Opportunity Program (3.0 GPA, African-American Florida resident) Golden Drum (African-American Florida residents.)
$2,000-$500 freshman year: Valedictorian or Salutatorian Scholarship.

Honors Program - FIU offers a four year interdisciplinary Honors Program to a limited number of exceptional students. Students should contact Caryl Grof at 305/348-4100 for an application and additional information.

Campus Visits - Tours are available at both the University Park and North Campuses. To schedule an appointment, please call 305/348-2363.

❖ ESTIMATED ANNUAL EXPENSES FOR FULL-TIME STUDENTS TAKING AN AVERAGE COURSE LOAD

For Fall and Spring Semesters:		*For Summer Semester:*	
30 Credit Hours		6 Credit Hours	
Tuition and Fees:	$ 1,800	Tuition and Fees:	$ 360
Room and Board:	$ 4,500	Room and Board:	$ 750
Books:	$ 600	Books:	$ 200

Average cost per undergraduate credit hour $59.93. (There may be additional activities and health fees.)

❖ ADDITIONAL FRESHMAN INFORMATION

The BOR minimum requirements do not guarantee admission to Florida State. Preference for admission to any term will be given to those students whose credentials indicate the greatest promise of academic success. Most Florida students accepted to the University have at least a B average in all academic subjects (grades 9 through 12) and test scores of at least 24 (composite) on the Enhanced ACT or 1100 (verbal plus math) on the recentered SAT-I. Non-Florida applicants will ordinarily be held to higher standards. In the case of applicants who do not meet these qualifications, a variety of additional factors are considered. These include the pattern and quality of courses and curriculum, and school recommendations. Applicants who bring to the University community other important attributes may receive additional consideration. These include talented writers and performing artists, applicants having special ties to the University, students with significant life and career experiences, skilled athletes, and members of minority groups underrepresented in our student body.

In computing the high school grade point average (academic courses only) for purposes of admission, the University assigns additional weight to grades of C or better in Honors, Advanced Placement, and International Baccalaureate Program courses.

Auditions are required of all students wishing to major in music, dance, or the BFA program in theatre. In addition to submitting the application for admission and other supporting information, prospective students should contact the School of Music, (904) 644-6102, the Department of Dance, (904) 644-1023, or the School of Theatre, (904) 644-5548 for details.

A departmental application is required of all students wishing to major in Motion Picture, Television, and Recording Arts. In addition to submitting the application for admission and other supporting information, prospective students should contact the School of Motion Picture, Television, and Recording Arts, (904) 644-0453, for details.

New College does not operate on a credit hour system. (There may be additional activities and health fees.)All students are fully enrolled. There is no summer term.

❖ ADDITIONAL FRESHMAN INFORMATION

When selecting the incoming class, Admissions looks for the characteristics crucial to success at New College -- strong academic preparation, initiative, perseverance, self-awareness.

Applicants should have strong education records (in both course selection and grades). An average of five or more academic courses a year is expected, with a minimum distribution as follows: four years of English, three years of math, three years of sciences, three years of social sciences, and two consecutive years of the same foreign language. Strong writing skills, school recommendations, standardized tests, and depth of extracurricular involvement are also important factors in admission decisions.

While our student profile is quite high, we do not use GPA, SAT, or ACT cutoffs; decisions are based on the aggregate quality of the application. If you wish to submit a sample of creative work to highlight a special talent, please do so. We urge you to represent yourself completely and honestly, giving full credit to your strengths.

Though New College is a part of the State University System of Florida, we have a separate application process (instructions for which come with the New College Supplementary Application). You will be notified when your file is complete, and should expect a decision within four weeks from that time. Accepted students who have committed to coming to New College will be sent enrollment information and materials (over the summer for Fall class, during January for Spring class).

Deadlines

New College admits students on an ongoing or "rolling" basis. Admission decisions are made for the Fall class beginning on or around January 1, and continue until enrollment goals have been met. Application materials for Fall are generally not accepted after May 1. Because international mails may delay the arrival of materials, the deadline for international students is April 15.

❖ ADDITIONAL FRESHMAN INFORMATION

Admissions - Any student who meets the minimum admission requirements and is interested in attending the University of Central Florida is encouraged to submit an application. The university will do all that is possible to accept all qualified applicants. An applicant's total high school record including grades, test scores (SAT/ACT), educational objective and pattern of courses completed will be considered in the selection process. UCF operates on a rolling admissions basis.

A student applying for admission who does not meet the BOR minimum requirements as reflected on the sliding scale may bring to the University other important attributes or special talents. An applicant may be admitted if, in the judgement of the Admissions & Standards Committee, the student can be expected to perform his or her University-level academic work successfully.

Dual Enrollment/AP, Honors, and IB Courses - Students who have been enrolled in dual enrollment courses will be required to have a 2.0 GPA for all coursework completed. Additional weight is assigned to Advanced Placement, Honors, and International Baccalaureate courses in calculating the high school GPA for admission purposes.

Campus Visits - Campus tours are given at 11:00 a.m. and 2:00 p.m. Monday through Friday, no appointment is necessary. Several open houses are scheduled in the fall and spring which will provide students to meet with faculty and departments.

Honors Program - The University Honors Program is designed to enhance and broaden the talents and abilities of the most able students who enroll at the University of Central Florida. Interested students must apply directly to the program. A visit with the Honors Director is encouraged.

Lead Scholarship Program - Program is designed to provide opportunities for talented entering freshmen with interests in leadership, scholarship and service.

Scholarships - Academic scholarships are available for entering freshmen. Every student who is accepted will automatically be considered for a scholarship. Scholarships are awarded on a variety of factors, including high school coursework, weighted high school grade point average, ACT/SAT's and ethnicity. Amount of awards will very depending on the availability of funding.

❖ ADDITIONAL FRESHMAN INFORMATION

Sixty percent of the freshman class will be admitted based solely on academic criteria. The criteria which will be evaluated include academic grade-point average, total number of courses completed in grades 9-12 in the content areas of English, math (beginning with algebra 1), science, social science and foreign language, strength of the senior year curriculum and SAT or ACT results.

The remainder of the class will be admitted through consideration of a combination of the academic credentials described above and additional criteria which will include characteristics such as first generation college, talent, under-represented minority and economic disadvantage.

Reply dates for the Summer B and Fall freshman applicants:

If application, fee, transcript and test scores received by:	**and you take SAT or ACT no later than:**	**your decision letter will be mailed:**
September 29, 1995	Junior Year	November 3, 1995
November 1, 1995	Junior Year	December 8, 1995
December 1, 1995	October, 1995	January 26, 1996
February 1, 1996	December 1995	March 22, 1996

* Both the University of Florida Application for Financial Aid and the results of your FAFSA from the federal need analysis processor must be received by March 15 for your application to be considered on time. Application for funds are processed on a first come, first served basis. Late applicants are considered for aid still available at the time their application is complete.

** Housing application card must be postmarked on or before March 1 if on Florida Prepaid Housing Program. Students on Florida Prepaid Housing must apply for admissions prior to December 1 in order to meet the above deadline with housing.

SAT II exams are required for placement purposes in English, Calculus, Chemistry and level II: French, German, Latin and Spanish. Contact Admissions office for further details.

❖ ADDITIONAL FRESHMAN INFORMATION

The University of North Florida (UNF) is a comprehensive, urban university which offers degree programs at the baccalaureate, master's and doctoral levels. UNF enrolls more than 10,000 students. It has 329 faculty and more than 1,350 full-time and part-time staff. The UNF campus is located on a 1,000 acre nature preserve approximately seven miles inland from the Atlantic Ocean and 12 miles southeast of downtown Jacksonville. Easy access is provided to UNF's entrance on St. Johns Bluff Road from Beach Boulevard (U.S. Highway 90) or State Roads 115, A1A, and Interstate 95 via J. Turner Butler Boulevard. The Interstate 295 beltway provides access for students commuting from surrounding communities. UNF's campus is compact, and all buildings are connected by a two-story, covered pedestrian walkway. Parking areas surround the campus providing minimal walking distances and easy accessibility to buildings. A unique feature of the UNF campus is its system of nature trails, one of which is specifically designed for people with disabilities. The trails are open ro everyone as a community resource.

Honors Program for Entering Freshmen The Honors Program at UNF is designed to provide creative ways for students to explore their academic talents through seminars and mentor programs with major professors. Admission to the program is based on high school GPA and test scores of entering freshmen and on the college GPA of sophomore and junior applicants. Generally, entering freshmen are admitted to the Honors Program (space available) if they graduate in the top 10 percent of their high school classes and present scores of 1200 SAT or equivalent on the ACT or are National Merit, Hispanic, or Achievement finalists.

Room and Board: $ 750.00 (Summer B)
Books: $ 300.00
(There may be additional activities and health fees.)

❖ ADDITIONAL FRESHMAN INFORMATION

Students who meet the minimum State University System requirements for admission are eligible for admission to USF. However, satisfaction of minimum requirements does not guarantee admission. The 1994 entering freshmen class presented credentials well above the minimum requirements. Requirements for admission are the same for all terms.

USF also considers applicants who do not fully meet minimum requirements but who have important attributes, special talents, or unique individual circumstances that may contribute to a representative and diverse student body. These freshman applicants are considered for admission by a faculty committee on the basis of other appropriate evidence of ability to do successful work at USF.

HONORS PROGRAM The Honors Program at USF is designed for academically superior students. Students qualify for University Honors based on high school grade point average and admission test (SAT- I or ACT) scores, and freshmen applicants who meet the minimum criteria (3.5 and 1270 SAT with a minimum verbal score of 580 or 28 ACT) are automatically invited to apply to the Honors Program. The Honors curriculum replaces the University general education requirements and can be applied to any major. Interested students are encouraged to contact the USF Director of Honors for additional information.

CAMPUS VISITS Prospective freshmen and their parents are welcomed and encouraged to visit the USF Tampa Campus. Admissions Information Sessions are held weekdays at 10 a.m. and 1 p.m. Student guided walking tours and Housing tours are conducted when classes are in session: walking tours at 11 a.m. and 2 p.m. and housing tours at 3:30 p.m. A Financial Aid Information Session is held weekdays at 12:30 p.m. Additional information about these and other visitation programs can be obtained from the Office of Admissions.

GENERAL INFORMATION USF enrolls more than 36,000 students on five campuses in the Tampa Bay Area and on Florida's West Coast. Freshmen enroll on the main campus in Tampa or at New College of USF, USF's honors college located on the Sarasota Campus. USF has on-campus residence hall accommodations for approximately 2700 students. Extensive undergraduate degree programs (87) are complemented by strong graduate offerings. Recent additions/enhancements to the quality of student life include improved food services (Taco Bell, Pizza Hut, Subway, opening on-campus), the opening of a new Recreation and Fitness Center, and the introduction of a new high-tech ID card.

Independent Colleges and Universities of Florida

INTRODUCTION

The independent colleges and universities of Florida are a diverse group; therefore, there are no common admission requirements, etc., among these institutions. Some institutions offer unique programs that are not offered at other institutions in the state. There are independent colleges and universities operating in Florida other than those listed in this directory. For a complete listing contact:

State Board of Independent Colleges and Universities
Department of Education
Tallahassee, Florida 32399-0400

Accreditation does not provide automatic acceptance by an institution of credit earned in another institution, nor does it give assurance of acceptance of graduates by employers. Acceptance of students of graduates is always at the discretion of the receiving institution or employer. Students should take additional measures to determine, prior to enrollent, whether or not their educational goals will be met through attendance at a particular institution. These measures include inquires to institions to which transfer might be desired and to prospective employers, and personal inspection of the institution in which enrollment is contemplated.

❖ **ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS**

Applicants are encouraged to apply during the Fall semester of their senior year. A completed application includes the applicant's application for admission, their official high school transcripts, their SAT or ACT score, their essay, a letter of recommendation, and the application processing fee.

Barry offers a wide range of academic scholarships to eligible applicants. These scholarship amounts range from full tuition to partial tuition. Applicants are encouraged to submit their completed scholarship application along with their application for admission.

Prospective students are welcomed on the Barry campus. "Open Houses", "Overnighter's", and "Fabulous Friday's" are scheduled visitation programs that will allow the prospective student a chance to experience what attending Barry University would be like. Information on these events can be obtained by contacting the Office of Undergraduate Admissions.

Barry offers a wide array of financial aid to incoming and current students. Please complete the Free Application for Federal Student Aid (FAFSA) and return it by the priority deadline listed above. The FAFSA can be obtained in your high school guidance counselor's office or by contacting the Office of Financial Aid at Barry University.

❖ **ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS**

Each applicant is evaluated individually, and admission is based on academic preparation, scholastic aptitude, and personal qualities. Primary consideration is given to the applicant's previous academic record, including the pattern and quality of course selection, grades, class rank, and test scores. In addition, the admissions staff reviews carefully recommendations from secondary school counselors. Participation in extracurricular activities is taken into consideration, especially when there is evidence of strong leadership potential or where there is persistent and successful accomplishment in these activities.

All freshmen and transfer applicants are required to submit score results from either the SAT or the ACT. The College does not have an established cutoff for test scores; however, it does subscribe to the minimum testing requirements prescribed by the Department of Education for studens planning to major in education.

*Prospective students who plan to major in education at Flagler must have a combined score of 1010 on the SAT or a composite score of 21 on the Enhanced ACT.

Financial Aid: Approximately 85 percent of the full-time students receive some form of financial assistance through entitlements, grants, loans, or work. For 1994-95, the total funds allocated to Flagler students was $5,498,700.

Campus Housing: The College has two residence halls with a capacity of 675 students (approximately 255 men and 420 women).

Freshman and Transfer Admission:
For the class that enrolled in the fall of 1994:

Applications Received	1,943
Candidates Offered Admission	976
Freshmen Enrolled	321
Transfers Enrolled	110

Freshman Profile:

Mean Grade Point Average	2.87
Mean Class Rank (Percentile)	75th
Mean SAT Verbal	480
Mean SAT Math	515
Percent of Florida Residents	52%

Florida Baptist Theological College welcomes professing evangelical Christians regardless of age, sex, race or national origin. The applicant must possess a high school diploma or its equivalent.

All applicants will meet the following general requirements for admission to any program offered by the college. The applicants:

1. Will have been Christians with active participation in a local church for at least one year.
2. Will provide written testimony of a personal experience of God's call to Christian service.
3. Will be of strong moral character.
4. Will be recommended by a local church affiliated with the Southern Baptist Convention or other evangelical body.
5. Will not use tobacco, recreational narcotics, alcohol or any other intoxicants in any form or amount.
6. Will be emotionally and socially capable of adjusting to college life.
7. Will show evidence of responsibility in personal money management.
8. Will submit satisfactory descriptions of any and all divorces and remarriages.
9. Will provide scores from either the ACT or SAT no more than five years old.

Florida Institute of Technology is a fully accredited, co-educational, independent, privately controlled and supported university. Florida Tech is a comprehensive university enrolling approximately 6,000 students from all fifty states and over 80 foreign countries, in undergraduate and graduate degree programs. Because of the moderate size of the student body and the university's dedicated faculty staff, a student at Florida Tech is recognized as an individual.

Florida Tech encompasses five separate schools offering a full scope of educational and academic excellence in the fields of natural science, engineering, business, psychology, aviation and related disciplines. The university offers degrees at the doctoral, master and bachelor levels. Florida Tech is located on Florida's space coast, approximately 30 miles south of Kennedy Space Center, 60 miles east of Orlando and 170 miles north of Miami in the city of Melbourne, Florida.

The university is situated on 175 acres of partially wooded and beautifully landscaped grounds, with nearly on-fifth of the acreage consisting of tropical gardens, a lush Florida forest of palms, water oaks, orchids and tropical vegetation.

The Melbourne campus is the home of the College of Science and Liberal Arts, the College of Engineering, the School of Business, the School of Psychology and the School of Aeronautics. The Flight Operations Department for the School of Aeronautics is located at the Melbourne International Airport and is only 5 minutes from campus. The airport is host to 4 major airlines and offers non-stop service to many U.S. cities and serves as an extensive intrastate and international connecting point.

❖ **ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS**

All students entering International College will be required to complete an assessment examination. The assessment examination will include the Career Programs Assessment Test (CAPT) provided by the Educational Testing Service. This is an evaluation examination designed to review the background subjects of language, reading, and mathematics. An overall score for immediate scheduling into classes is 148 or higher. An overall score of less than 148 or a score of less and 45 in either the language or the math segments of the test will require additional student counseling prior to being scheduled for initial classes. It is mandatory that the student scoring less than 45 in the language segment of the examination be enrolled in English 1000 and the student scoring less than 45 in the mathematics segment be enrolled in Mathematics 1000. These courses, when successfully completed, will be used as prerequisites to English Composition and College Mathematics.

❖ **ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS**

An applicant must make arrangements to take Keiser College's placement exam or provide results of his Scholastic Aptitude Test (SAT) or American College Testing Exam (ACT). A minimum combination score of 840 on the SAT or a minimum composite score of 17 on the ACT is required for acceptance. After the application for admission has been submitted, the applicant's high school transcript or general equivalency diploma scores should be sent to the College.

Students may be admitted prior to the receipt and review of proof of high school graduation or the completion of all paperwork in their student file. However, these students are granted provisional admission standing for the period of the semester, at which time the student may not re-enroll if the student file is not complete.

❖ **ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS**

Acceptance to a degree program will be granted only after evaluation of the application, reference form, official transcripts, and test score has been made. The application must be accompanied by appropriate fee (see catalog).

The application must also have signed that all of the information given is true and that he will adhere to the Standards of Conduct as long as he is a student. He must affirm his beliefs in Articles I through VII of the Student's Doctrinal Statement. Further, he must indicate that he has read and will abide by the financial policies. Finally, he must sign that he has read and will respect the School's purpose, philosophy, and objectives. Information proven to be false may result in dismissal.

Applicants desiring entrance into the Bachelor degree program must have completed the requirements for a high school diploma or the GED. All students are to complete a standardized Bible knowledge test.

❖ **ADDITIONAL ADMISSIONS AND OTHER INFORMATION FOR FRESHMAN STUDENTS**

Graduation from high school or its equivalent is prerequisite for admissions to the college. Applicants not completing a secondary program or not having a diploma will be considered for admission on the basis of the General Education Development (GED) test or equivalent. Undergraduate applicants are required to satisfy a nationally recognized assessment test to determine their potential success in college level studies. Transfer students who are high school graduates or GED holders and who can submit proof of successfully completing an Associate degree at an accredited post-secondary institution (with at least 2.0 cumulative grade point average), may be admitted to any program without testing.

Applicants are informed of their acceptance status shortly after all required information is received and the student's qualifications reviewed. Students may apply for entry at any time.

Area Vocational Technical Centers
INTRODUCTION

MISSION AND ROLE

An area vocational-technical center is a specialized, postsecondary institution designed primarily to provide job preparatory and supplemental training, not leading to a baccalaureate degree, to persons who have completed high school and persons who have left school before graduation. Programs provided are directly related to actual or anticipated opportunities for gainful employment and suited to the needs, interests and abilities of the persons to be served.

An area vocational-technical center offers courses in agricultural education, business education, distributive education, health occupations and public service education, home economics education, and industrial education. Compensatory education courses may also be offered in addition to special programs for the disadvantaged and handicapped.

Additional education programs and services are provided as needed to support the career goals of the students, and the economic development needs of business, industry and the community.

High school students may be served by an area vocational-technical center, on a space available basis, in order to obtain vocational instruction which is not available at their high school.

1. The program of an area vocational-technical center consists of the following types of courses and activities:

   a. Occupational proficiency course. An occupational proficiency course includes instruction in a specific occupation or cluster of closely related occupations in order to develop those specific skills or proficiencies needed to obtain gainful employment in a given occupation or occupational area. Such courses are provided to persons meeting the following conditions--

      (1) persons preparing to enter an occupation or a registered apprenticeship program, or

      (2) persons who already have entered an occupation but desire to upgrade or update their occupational knowledge and skills, or learn new ones in order to achieve stability or advancement in employment.

   b. Remedial or compensatory education course. A remedial or compensatory education course consists of instruction to correct any education deficiency or handicap which prevents a student from benefiting from the instruction related to the occupation or occupations for which she/he is being trained.

   c. Activities of vocational education student organizations. Vocational education student organizations, when provided, are an integral part of the vocational instructional programs, and the activities of such organizations are defined as part of the curriculum.

   d. Courses for individuals who need and desire vocational consumer and homemaking education may be offered on a space available basis.

2. Area vocational-technical centers cooperate with local apprenticeship committees in providing, through the center, preapprenticeship programs and apprenticeship-related instruction.

3. An area vocational-technical center may provide an adult general education program principally in support of the career goals of the students enrolled, including offerings at the basic literacy, elementary, and secondary levels.

4. Area centers take an active role in the coordination and articulation of high school programs with area center programs. Both public and private high school students may attend an area center, on a space available basis, for vocational instruction that is not available at their individual high school.

5. Area vocational-technical centers work cooperatively with the coordinating council for Vocational Education, adult general education, and community instructional services in fulfilling their obligations. The obligations of this coordinating council include reviewing the total educational program offered in or planned for the council planning district and making recommendations to encourage the development of needed offerings or changes in existing offerings.

Fourteen Florida community colleges are also designated area vocational-technical centers and offer vocational-technical programs. Specific information for each of the community college area centers can be found under the section "Designated Area Vocational Education Schools (Administered by Community/Junior Colleges)."

❖ADMISSIONS REQUIREMENTS AND OTHER INFORMATION:

MAVTC is an adult post-secondary institution offering long and short termed vocational skill programs on a year to year basis. The Center serves those 16 years of age or older who are interested in vocational education for employment purposes and have the ability to benefit from training. Most programs are open for enrollment at any time during the year.

OTHER INFORMATION: Evening programs: The Evening Trade Extension program is for those persons out of school who wish to refresh their training or upgrade their skills in their present job or a related job. Training is also provided for those temporarily unemployed, when practical, short-term courses in the basic training required for a particular job or skill are available. Due to the rapid changes in industry, programs or course offerings constantly change and/or expand.

Dietary Managers Association
National Association for the Ed. of Young Children

❖ ADMISSIONS REQUIREMENTS AND OTHER INFORMATION:

Persons who are 16 years of age or older are eligible to enroll in programs at OTEC/Orlando Tech with the exception of health occupations. Most programs are open ended. Some programs begin on a regular calendar schedule. The Student Services office is open Monday-Thursday from 8:00 am - 9:00 pm and Friday 8:00 am - 2:30 pm. Guidance counselors will assist the individual in selection of program and in the process of registration. A screening test of reading/language and math skills is required (Basic Skills Test) when enrolling in a specific vocational/technical program.

Other Information: The basic goal of the Center is to prepare adults to take their places as productive citizens in our society. The Centers' responsibility is to accept the adult learner at his/her present achievement level, to help establish realistic educational objectives, and to provide the learning experiences necessary to meet these objectives as quickly and economically as possible. Courses are individualized as much as possible so that each student may progress at his/her own rate of learning ability. It is expected that some measure of success will be gained by any student enrolling in a selected program at the Center. The student's academic level can be raised to the point where success may be gained in a chosen occupational field or a GED diploma may be obtained, or both. The high school graduate may enter an initial occupational training program to gain competency in a vocational field, and already employed individuals may retrain or update skills through the Center's Industry Services Program. The Center is well supplied with state-of-the-art business and industrial equipment and instructional resources.

❖ ADMISSIONS REQUIREMENTS AND OTHER INFORMATION:

The Center is open to all persons 16 years of age or older who are interested in vocational education for employment purposes and have the ability to benefit and profit from training. Unless a program's additional accrediting agency or licensing board requires a specific age or a high school diploma or its equivalent for admission, the program is open to any student who can reasonably expect to benefit from the program. Students who cannot meet all admission criteria may be eligible for admission under an Individual Education Plan (IEP). Students currently enrolled in any Pinellas County high school may apply for admission to PTEC programs on a part-time basis by meeting all entry requirements and completing a PTEC application. Vocational programs are also available at PTEC for eligible individuals who are currently enrolled in the DEES program (Dept. of Education for Exceptional Students. These students attend vocational classes provided by vocational instructors as well as special education classes provided by DEES faculty located at the facility. There is also a high school dropout prevention program that allows students to be enrolled in vocational classes. High school students are not required to pay any tuition to attend classes in vocational programs. Tools and supplies are provided.

❖ACCREDITATION AND CERTIFYING BODIES

Southern Assn. of Colleges & Schools; Council of Allied Health Education Assn.; National League of Nursing; National Automotive Technicians Education Foundation; National Shorthand Reporters Assn.; National Institute of Automotive Service Excellence.

ADMISSIONS REQUIREMENTS AND OTHER INFORMATION:
TABE (Test for Adult Basic Education)

Applicants must complete an application which they may obtain from the Guidance Office of the Institute or from a high school guidance counselor. Most training programs have minimum admission or state licensure requirements. Programs are available to assist in improving basic skills. High school students in grades 10, 11, and 12 may attend the Institute on a half-day basis. All persons who are at least 16 years of age and no longer enrolled in high school may apply for full- time or part-time admission.
The Institute has received numerous awards and recognition: designated Automotive Electronics Specialization site; General Motors and Nissan Corporations' satellite training centers; a downlink for the Florida "SUNSTAR" satellite programs; and a T-TEN (Toyota) Training Site.

❖ ADMISSIONS REQUIREMENTS AND OTHER INFORMATION:

The Center admits as regular students persons who are beyond the age of compulsory school attendance and who have the ability and desire to profit from job preparatory training. Applicants to vocational programs should attend one of the departmental orientation programs which are scheduled on a weekly basis. Orientation programs provide information pertaining to curriculum, costs, entry requirements, support services, financial aid, and general institutional policies. Basic skills testing is included, and a tour of the facilities is available. For those individuals who cannot attend during the day, a generic orientation program is offered one night a week. Individual counselor interviews are scheduled following the orientation program to discuss test results, program placement, special needs, and registration procedures.

Foundation for Interior Design Education Research

❖ ADMISSIONS REQUIREMENTS AND OTHER INFORMATION:

Requirements may vary depending in the length and difficulty of the program.
Vocational-technical education in applied technologies at Seminole Community College is based on the belief that occupational preparation is an integral part of the total education of every individual. The college believes that these programs and courses should enable students to develop skills, knowledge, habits, and attitudes essential to securing and holding a job, and gaining promotion in their chosen field of endeavor. Special support services are available at SCC to identify and remove any potential barriers to success so that all individuals possessing a genuine desire to learn will have the opportunity to obtain a vocational-technical education.
